**REPORT ON TEACHERS FEEDBACK ON DESIGNING AND REVIEW OF  
SYLLABUS**

**(With effect from the academic year 2017-2018)**

The Feedbacks collected from the teachers mentioned that this revised syllabus will help the UG and PG physics students to understand about different types of energy sources and their applications. A very nicely organized syllabus to follow, some of the materials, students already have been taught and some others were new to them. This revised syllabus is excellent both for the students who wishes to refresh some concepts regarding renewable energy sources and for the students who are very new to this energy field.

Most of the teachers are satisfied with course content and curriculum, helpful for both Placements and Higher Education. Timely updating of Curriculum is strongly recommended. Online and Off line Learning materials can be made available to the students for efficient learning. Apart from theory courses, Project oriented training and Practical skill oriented courses can be introduced.

As per the recommendations, Institution developed a mechanism to design and timely updation of curriculum by considering experts opinion. ## ACTION TAKEN REPORT ON FEEDBACK BY TEACHERS ON CURRICULAM (2017-2018)

To know the gap in the syllabus as per the requirement of various stakeholders, the college has taken feedback on curriculum from the students regarding their subject. Suggestions like more smart and experiential leaning and approach to competitive exams, relevant to the framing of the syllabus of various courses were consolidated and discussed in IQAC, then communicated to the course instructor. It was decided in IQAC to communicate this feedback report to University through board of study members.

Since more than 70% of the teachers of the institution are actively participating in the syllabus restructuring process, as being members of board of studies. These suggestions were communicated to the chairmen of different boards for the further suggestions. As suggested by board of studies required actions were taken to tune the syllabus

ஆசிரியர் பின்னாட்டம் (2020 - 2021)

நடவடிக்கை அறிக்கை

பாடத்திட்டத்தில் கொரோனா பாதிப்பை முன்னிட்டு மாணவர்களின் பாடச் சுமையை குறைக்கும் பொருட்டு பல்கலைக்கழகம் பாடப் பகுதிகளை குறைத்துள்ளது. பாடவேளைகள் அதிகமாக இருந்த போதும் பேராசிரியர்கள் விலாவாரியாக பாடத்தை எடுப்பதற்கான சூழலை அது கொடுத்துள்ளது. பாடத்திட்டத்தில் பேராசிரியர்களுக்கு பெரிய முரண்பாடு ஏதுமில்லை.

# REPORT ON TEACHERS FEEDBACK ON DESIGNING AND REVIEW OF SYLLABUS

(With effect from the academic year 2020-2021)

As per the feedbacks suggested by the teachers the objective of electricity paper is to provide a basic knowledge to analyse electric circuits with dc and ac sources. But circuit theorems like Thevenins, Nortons, Max Power theorem are not included in the syllabus.

The course instructor of atomic and nuclear physics pointed that the course gives clear cut understanding in basic concepts which makes students to get interest in studying these subjects as specialization in higher studies. In this new syllabus, small modification created in fifth semesters, mainly choosing major elective paper option is reduced from two to one. As per new syllabus, students are given the opportunity to choose one major elective as programming in C++ or communication electronics. Unit wise topics of these two elective papers are similar like previous year syllabus.

# REPORT ON TEACHERS FEEDBACK ON DESIGNING AND REVIEW OF SYLLABUS

(With effect from the academic year 2021-2022)

According to the feedbacks received from the teachers, the learning objectives are clear and appropriate to I MSc Physics. The new syllabus has lot of modifications. Including relativity unit syllabus is good. The text for study is not covered the entire topic. E-reference is good. Overall syllabus is good. As per the feedbacks collected from the teachers, Many Unnecessary topics are included in both syllabus. For example, in unit I for Mathematical Physics I Syllabus, Linear Algebra is not necessary for Physics Students.

The course instructor of the non linear dynamics pointed that the revised syllabus of NLD explores the concepts of non linearity and chaos. The new and research oriented chaotic concepts are introduced to give the insights on the applications of chaos theory. Each unit of revised syllabus reveals the individual domains of NLD, and also the subject teacher noted that in general, the revised syllabus of NLD is well matched for beginner level PG students. After the completion of syllabus, students will acquire the skill of analysing complex systems at elementary level.

The current syllabus of Research Methodology seems to slightly changed compared to the previous syllabus. The renewed syllabus is quite satisfactory for the PG students. Subject teacher of renewable energy sources mentioned that the new revised syllabus of renewable energy sources introduces several types of non conventional energy sources. The new syllabus introduces the types of energy and their scenario in india. Solar and Biomass energy were briefly given in the syllabus is very useful. In general the subject teachers pointed that the revised syllabus is good and useful for the students.
