KALIYAKKAVILAI
DEPARTMENT OF ENGLISH
STUDENTS FEEDBACK ON TEACHERS REPORT (2023-2024, ODD)

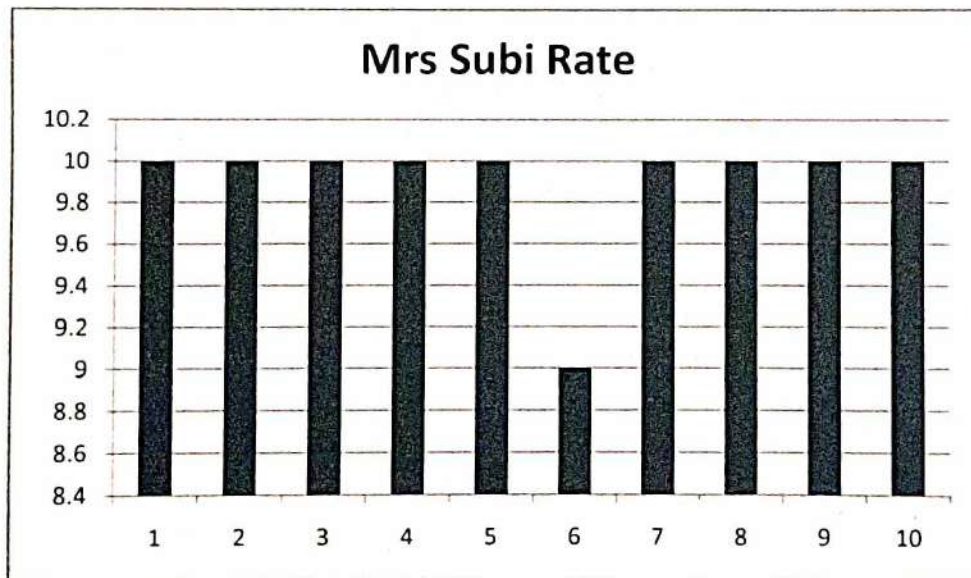

INTRODUCTION:

The students are supposed to be the most important source of Higher Education systems. The interest and participation of students at all levels in both internal quality assurance and external quality assurance play a central role. Any Higher Education Institution needs to ensure that students have a voice at various decisions making processes, formulating learning and teaching practices and those views of students are to be considered as the primary evidence on which the quality of teaching and learning is evaluated. The Student Feedback Approach is basically about institutional practices, processes and frameworks that take into account students concerns of the quality of the education they receive. Department of English has ten staff, who respects the view and suggestion of students for their improvement. In each section, the report includes findings of the top tasks which candidates feel the most and least prepared in.

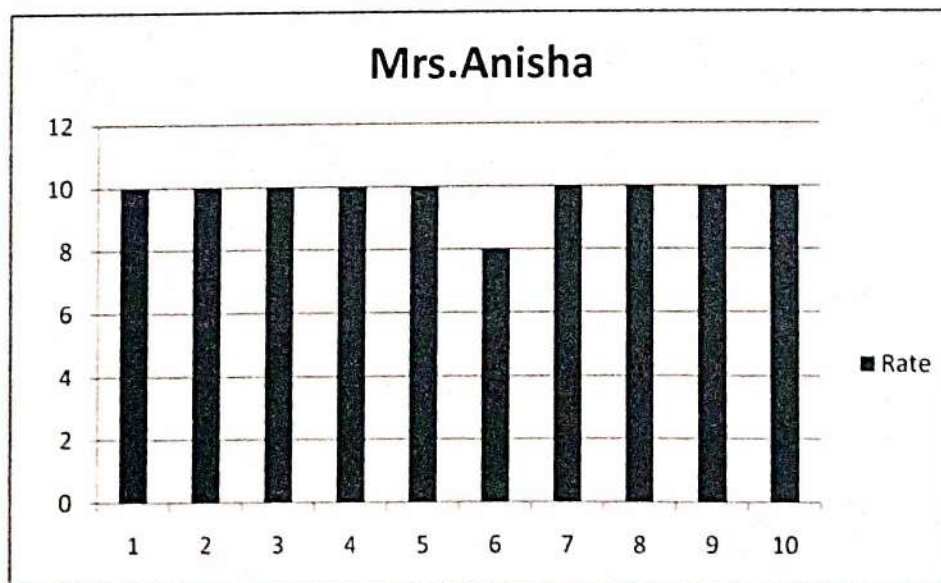

The Main Objectives of the feedback system are as follows:

- To provide the platform to the students in identifying a greater role in the teaching learning process.
- To help the faculty modification and improvement in the teaching methodology at the College.
- To develop a communication channel between the management and students.
- To maintain the functioning of the College system in the field of teaching learning process, library, sports, administration, etc at its level best.

TEACHERS FEEDBACK 2023-2024 (Odd Semester)

ACTION TAKEN REPORT

In the Academic year 2023-2024 majority of the staffs secured good scores for the questions from 1-10. The teachers were also asked to explain what is expected in assignments and test. The students expected the teachers to encourage them to refer books and articles, motivate them to study regularly and to improve their communication skills. The teachers were instructed to use more modern teaching aids, handouts, PPT and good rapport between them and students. The teachers accepted to improve themselves.

Students Feed Back on Teachers Report

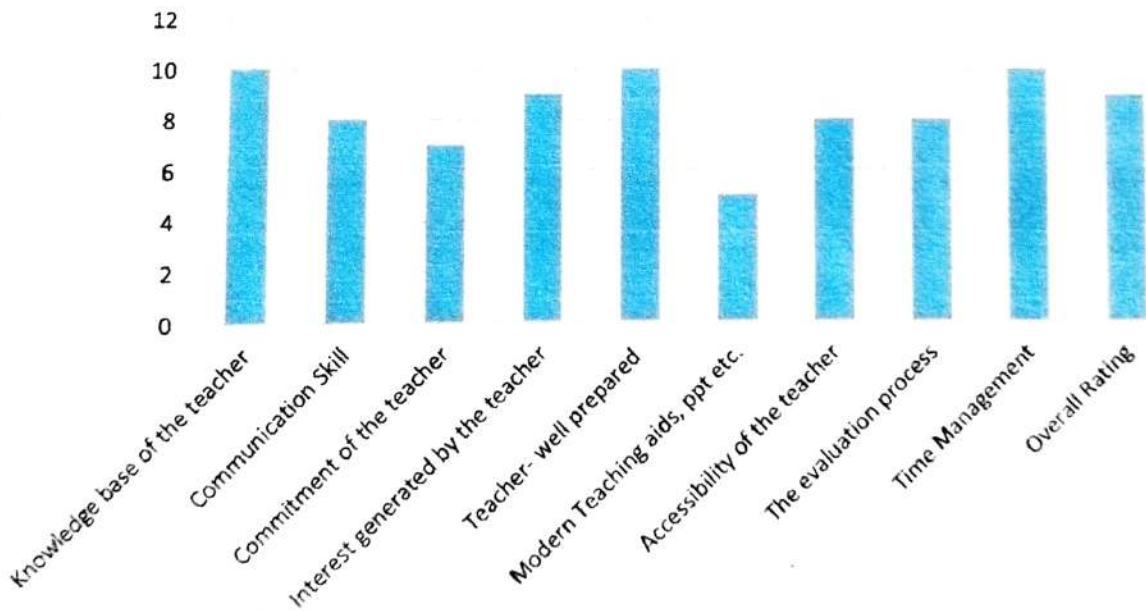

INTRODUCTION:

The focus should be on encouraging existing strengths when providing feedback to a teacher who just needs a nudge. Provide encouraging feedback while gently guiding them towards improvement in specific areas.

1. You have established a positive classroom atmosphere. Let's explore ways to further foster a growth mind-set among students.
2. Your use of multimedia resources effectively enhances lessons. Can you think of additional ways to integrate technology for interactive learning?
3. Your lessons are well-structured. Consider incorporating more opportunities for **inquiry-based learning**.
4. I've noticed that students enjoy your class discussions, although not all take part. Consider finding ways to encourage all students to participate actively.
5. Your passion for teaching is evident. However, allowing students to ask clarifying questions will make the learning experience more interactive and engaging.
6. You have a strong ability to identify struggling students. It will be great to design targeted interventions to support their needs.
7. Your communication with parents is consistent. Consider incorporating positive anecdotes about student progress in your updates.
8. Your classroom routines are effective, and to further make them even more impactful, consider using transition times to promote student self-assessment.
9. Your assessments are well-designed. Let's explore **formative assessment** strategies to provide more immediate feedback to students.
10. Your commitment to continuous improvement is admirable. However, setting specific professional development goals to enhance your teaching practices is beneficial.

Conclusion:

The various graphs present the views expressed by present students in regard to their perception of quality in an educational institution. More than 85% of our students felt that the Knowledge base of 90% teachers is so good and Communication skill of our teachers is accepted by 91% of students. According to department of Mathematics, the commitment of the teachers is reach 100%. Also, 82% of our staff generates interest in subjects for all the students. All students accepted that all the subject teachers well prepared by teachers teach the topics with teaching aids and power point presentation. All the teachers submit the internal assessments on time and all the teachers completed the portions on time and therefore they can revise the syllabus before the university examination. Thus students conclude that the teachers in department of Mathematics is over all satisfied.

STUDENTS FEEDBACK ON TEACHERS REPORT

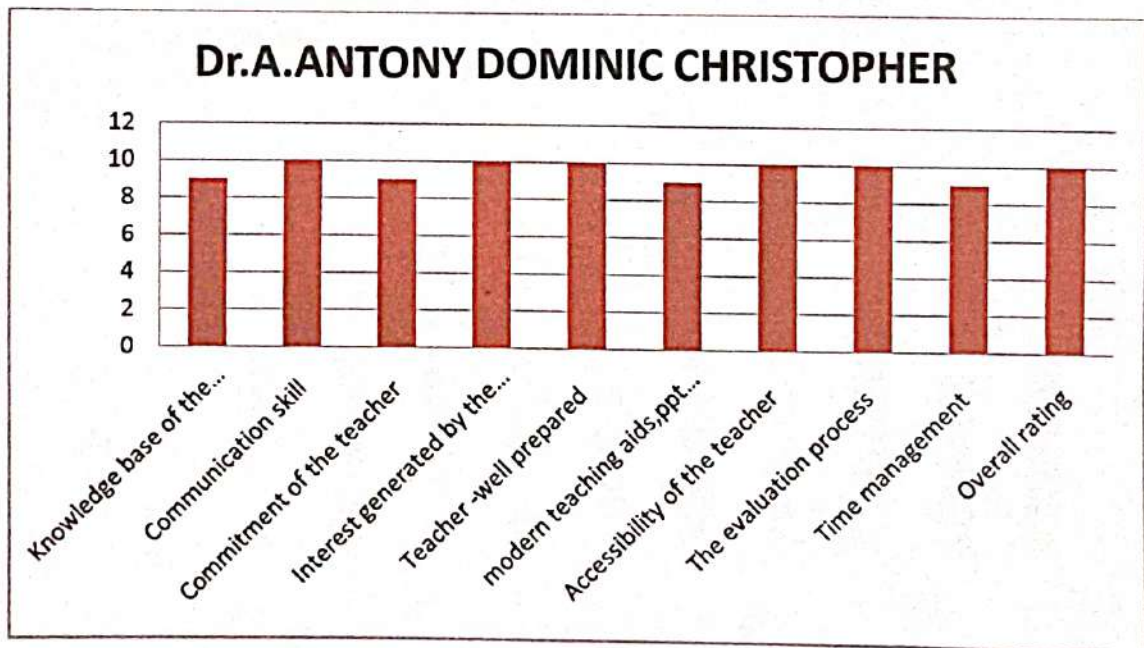

2023-2024 (ODD)

Students are the major stake holders of the institution . The internal quality assurance and external quality assurance have to play a vital role in development of the institution. The students participation is the major role in decision making process, formulating learning and teaching practices and those views of students are to be considered as the primary evidence on which the quality of teaching and learning is evaluated. The Student Feedback on teachers approach is basically to evaluate the teaching methods of the teachers. It is used to updating the knowledge of each and every teachers.

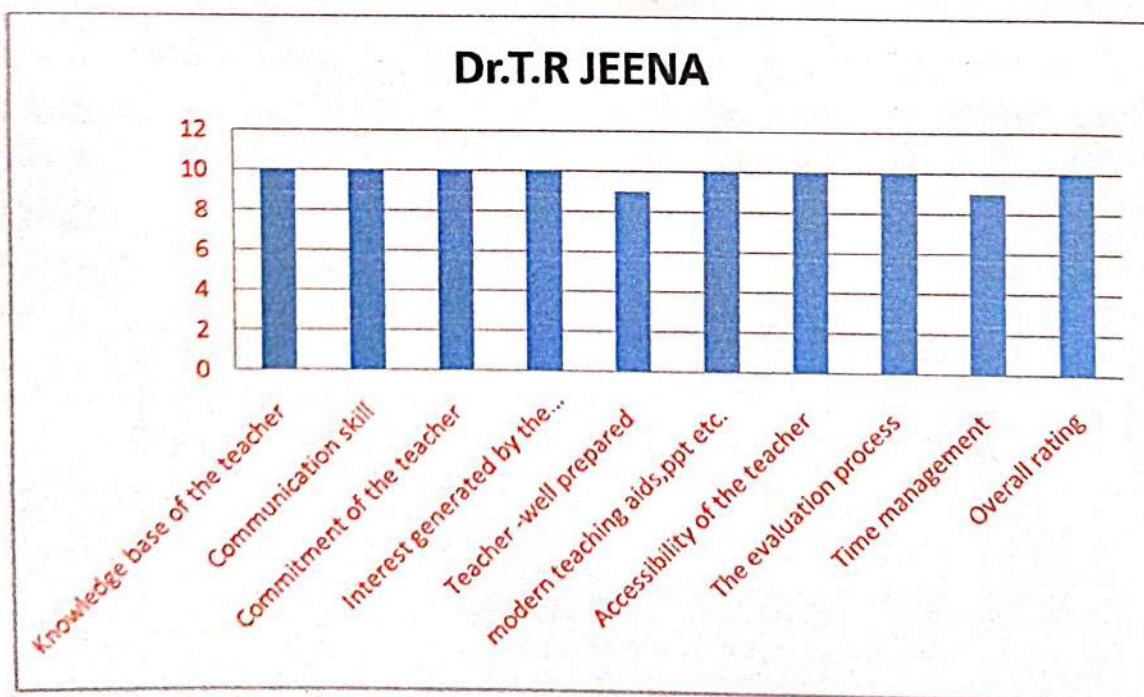

Objectives :

- To provide the platform to the students in identifying a greater role in the teaching learning process.
- To help the faculty modification and improvement in the teaching methodology at the College.
- To develop a communication channel between the management and students.
- To maintain the functioning of the College system in the field of teaching learning process, library, sports, administration, etc at its level best.

Conclusion:

The various graphs present the views expressed by present students in regard to their perception of quality in an educational institution. More than 75% students are satisfied with their teaching methodology of our college. The quality of education depended on the overall academic environment of the institution, a well-furnished and stocked library, Necessary computer facilities, and well-equipped labs are the infrastructural priorities. The quality education could come only if there were quality teachers who were good communicators. The output shows a very good environment of teaching at Nanjil College. The staff those who need improvement are requested to deliver the course efficiency after well preparation.

STUDENTS FEEDBACK ON TEACHERS : 2023-2024 (ODD)

In the department of chemistry 6 staff worked in the year 2023-2024. All the students of chemistry department told that the teachers always prepared for the classes. They covered the entire syllabus as prescribed by the university. Teachers were managed and motivated the students to study regularly. All were creative in developing activities and lessons. They encouraged the students to speak up and be active in the class. Teachers were good in technical content, communication skills and using of non print teaching aids. Teachers are always respected the opinions and decisions of the students. Their words and actions were seemed to be matched. Their voice was audible and consistent and fair in discipline. They helped the students when they ask for help. The students trusted the teachers. From the report the overall values of 10 questions, the value is less for Dr.Priya Rajini. This was informed to Dr.Priya Rajini, and suggestions were also given. She accepted.

From the report of chemistry students feedback on teachers overall values are shown in the graph. When comparing the overall values of 1 question, Dr.R. Murali, Mrs.Shirley, and Dr.Agatha got high value and Dr. K. Priya Rajini got low value. For the second question Dr.Murali and Dr. M. Mary Sheeba got high value and Dr.Priya got low value. For the third question Dr.Mary Sheeba got high value and Dr.Agatha got low value. For the fourth question Dr.Alwin and Dr.Mary Sheeba got high value. For the fifth question Mrs.Shirly got high value. For the sixth question Mrs.Shirley got high value. For the seventh question Dr.Mary Sheeba got high value. For the eighth question Mrs.Shirley and Dr.Alwin got high value For the ninth question Dr.Priya got low value. For the tenth question Dr.Mary Sheeba , and Mrs.Shirley got high value. Staff those who got low values are instructed to improve them self. They all accepted.

STUDENTS FEEDBACK ON TEACHERS: 2023 -2024 (ODD)

ACTION TAKEN REPORT

In the academic year 2023 -2024, the overall values from 1st question to 10th question, few teachers got almost high value. Staff those who got low values were instructed to improve their communication skills. The students expected the teachers to encourage them to refer books and articles, motivate them to study regularly and to follow time management and were asked to use power point presentation, more modern teaching aids, handouts, and good rapport between them and students. The teachers accepted the suggestions to improve themselves.

Students Feedback on Teachers

2023 - 2024 (Odd Semester)

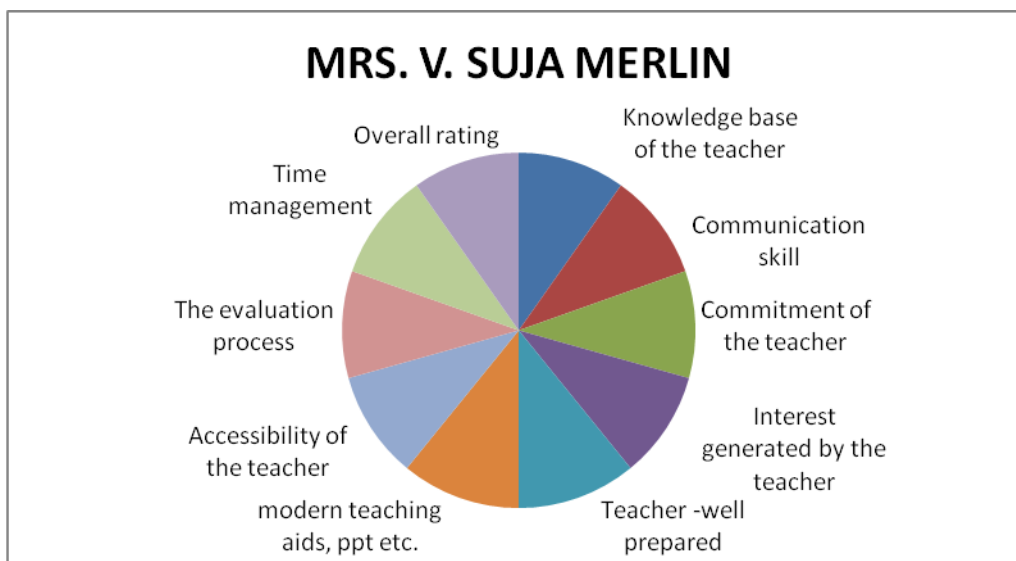

INTRODUCTION:

Feedback is a key element of the incremental process of ongoing learning and assessment. Providing frequent and ongoing feedback is a significant means of improving achievement in learning. It involves the provision of information about aspects of understanding and performance and can be given by practitioners, peers, oneself and from learners to practitioners. Effective feedback assists the learner to reflect on their learning and their learning strategies so they can make adjustments to make better progress in their learning. It is essential to know the strengths of teachers and those aspects of their practice which could be further developed.

From this perspective, the institution of teacher evaluation is a vital step in the drive to improve the effectiveness of teaching and learning and raise educational standards. Meaningful teacher evaluation involves an accurate appraisal of the effectiveness of teaching, its strengths and areas for development, followed by feedback, coaching, support and opportunities for professional development. It is also essential to celebrate, recognize and reward the work of teachers.

Conclusion:

The analysis reflects 99% of the students strongly agreed to the fact that the syllabus was explained in detailed at the beginning of the session. Most of the students were satisfied with the institutional practice of evaluation criteria for internal examination, internal assessment and practical examination. Regarding the completion of syllabus before the examination, 100% of the students agreed that the syllabus was timely completed while the rest replied neutrally. The feedback was taken ten-point scale i.e., 1-3 in high range 4,5 in satisfactory ,6 is in average and remaining points are below average. The student feedback was satisfying with most of the students being happy about the different dimensions of the syllabus. The feedback has proved the satisfaction of the students, regarding the teachers overall classroom activities and approaches.

2023-2024

Student feedback on Teacher Action taken Report Odd Semester

The feedback on curriculum from students were obtained after the end of each academic session. Students opinion on syllabus were measured in a four-point scale (strongly agree, agree, disagree, strongly disagree) For analysis, a random sample of feedback of 21 students from the Department were selected with a proportional representation to each program. The data collected has been analyzed and the results given below:

The analysis of the results indicate that students have rated Size of syllabus in term of the load to be average. The objectives stated for each of the course are clear and opportunity to developing skills, Easy availability of study materials and Relevance of the course for providing employability in the curriculum as mostly average. The course conceptually difficult to understand very good and excellent. All the students reported that the teachers provide them with sufficient study materials but they also wanted the library to be more equipped. The entire syllabus was covered by the teacher

Action taken:

Experiential learning practices were implemented in regular teaching.
Extra practical sessions were arranged.

Report- Students Feedback on Teachers

The Students feedback on Teachers was collected through the questionnaire. It stated that the teachers are very efficient. 100% of the syllabus is completed on time. They take care of their students and the evaluation method is unbiased. All the students had an opinion that the teachers' preparation was satisfactory. Most of the students also acknowledge that teachers observe the students at personal level, identify the strengths and weaknesses of the students. This is also a positive contribution of the teachers towards nurturing the students' capabilities. More than half of the students have experienced use of ICT tools in the classes.

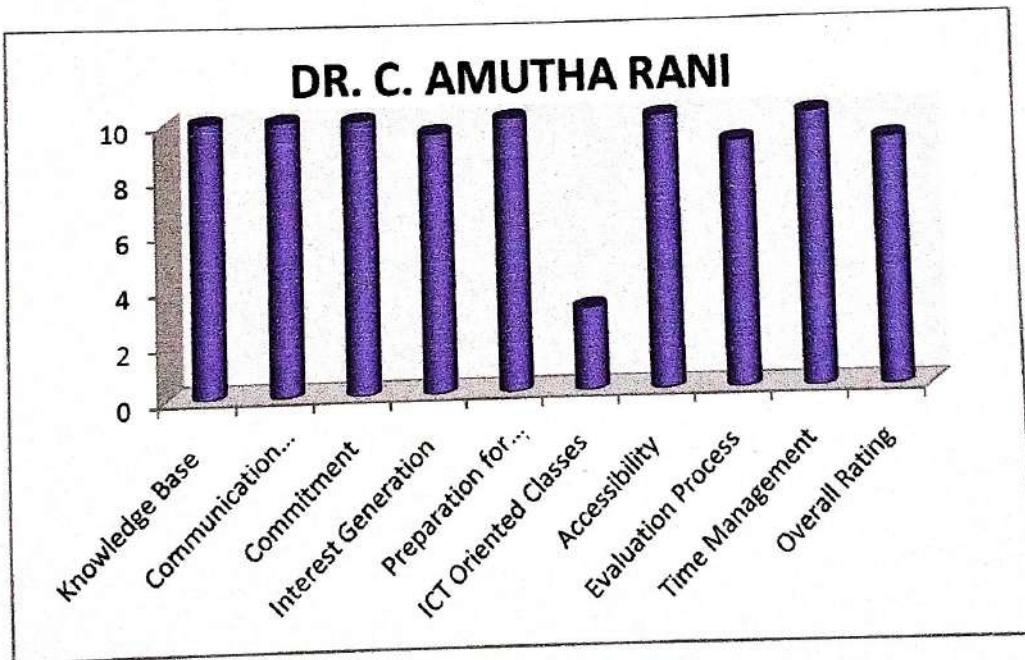

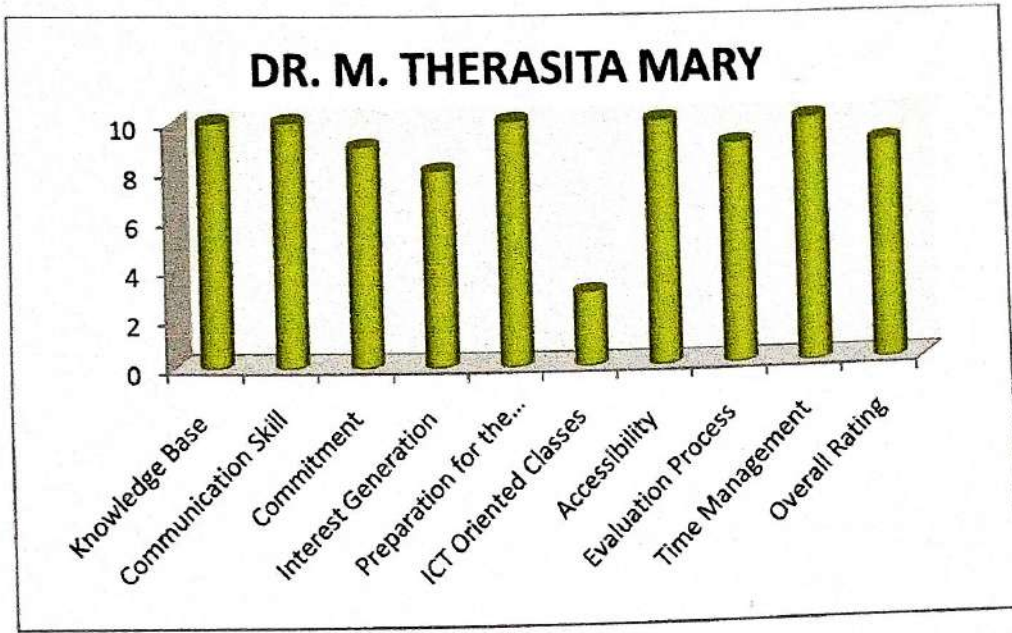

The analysis of the students' responses was presented below in the figures.

STUDENTS FEEDBACK ON TEACHERS REPORT -2023-2024(ODD)

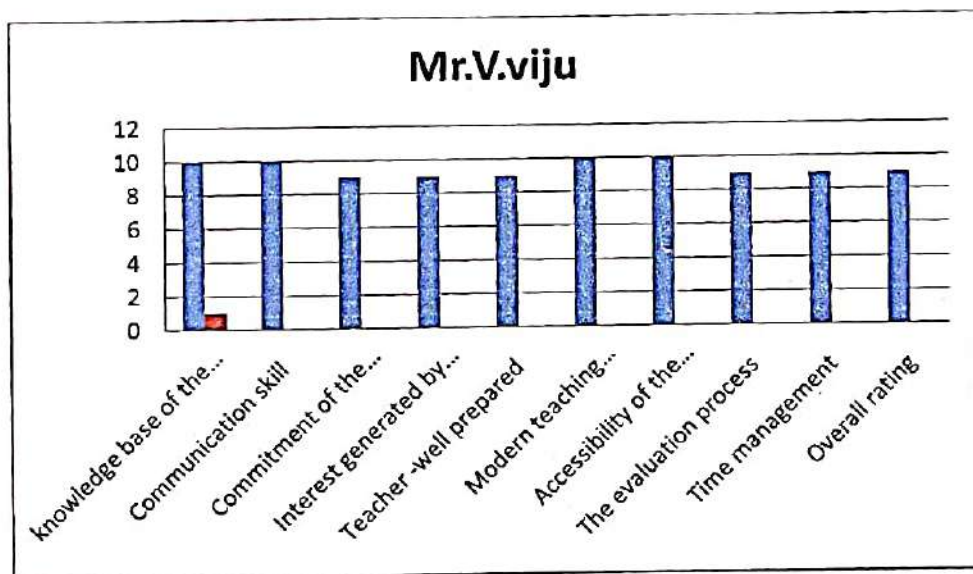

INTRODUCTION

The students are supposed to be the most important stakeholders of Higher Education systems. The interest and participation of students at all levels in both internal quality assurance and external quality assurance have to play a central role. Any Higher Education Institution needs to ensure that students have a voice at various decisions making processes, formulating learning and teaching practices and those views of students are to be considered as the primary evidence on which the quality of teaching and learning is evaluated. The Student Feedback Approach is basically about institutional practices, processes and frameworks that take into account students concerns of the quality of the education they receive. In each section, the report includes findings of the top tasks which candidates feel the most and least prepared in.

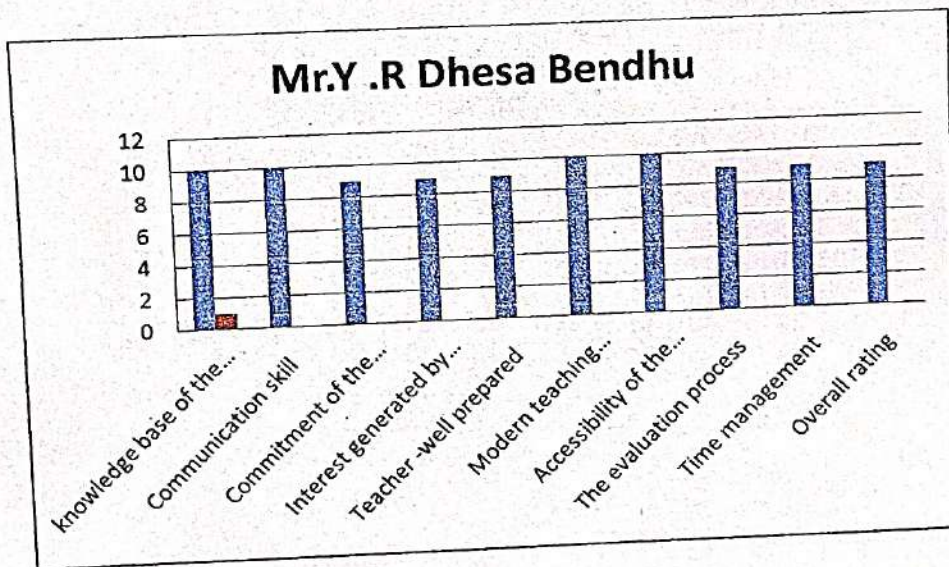

The main objectives of the feedback system are as follows:

- To provide the platform to the students in identifying a greater role in the teaching learning process
- To help the faculty modification and improvement in the teaching methodology at the College.
- To develop a communication channel between the management and students
- To maintain the functioning of the College system in the field of teaching learning process, library, sports, administration, etc at its level best.

Conclusion:

The various graphs present the views expressed by present students in regard to their perception of quality in an educational institution. More than 75% students are satisfied with their teaching methodology of our college. The quality of education depended on the overall academic environment of the institution, a well-furnished and stocked library, Necessary computer facilities, and well-equipped labs are the infrastructural priorities. The quality education could come only if there were quality teachers who were good communicators. The output shows a very good environment of teaching at Nanjil College. The staff those who need improvement are requested to deliver the course efficiency after well preparation.

Student feedback on Teachers Report 2023-2024

To improve students' performance, it is essential that they should understand the concepts related to the subject clearly. This can be achieved through effective teaching and by establishing good rapport between students and teachers so that they feel free to ask their difficulties. It is important to know students' expectations from teachers as well as the performance of the teacher from student's point of view. It is necessary to know if they are facing any difficulties. To improve the quality of teaching, it is essential to collect feedback of teachers from students. Feedback form consists of 10 parameter.

Student feedback on Teachers Action taken Report

Based on the feedback collected from the students, the department took some actions that are listed below,

1. Power point presentation motivates students to take key points related with their study. Hence, number of PPT presentation per week was increased
2. Teachers evaluated the students based on the students learning skill to cope up with learning.
3. Teachers are motivated to use the college equipments in gathering information. They are asked to prepare more to cover all related concepts and topics about the subject.
4. Staff members are also encouraged to use innovative teaching methods like open classroom, interactive classrooms, group discussion etc.,

STUDENTS FEEDBACK ON TEACHERS REPORT

2023-2024 (ODD SEMESTER)

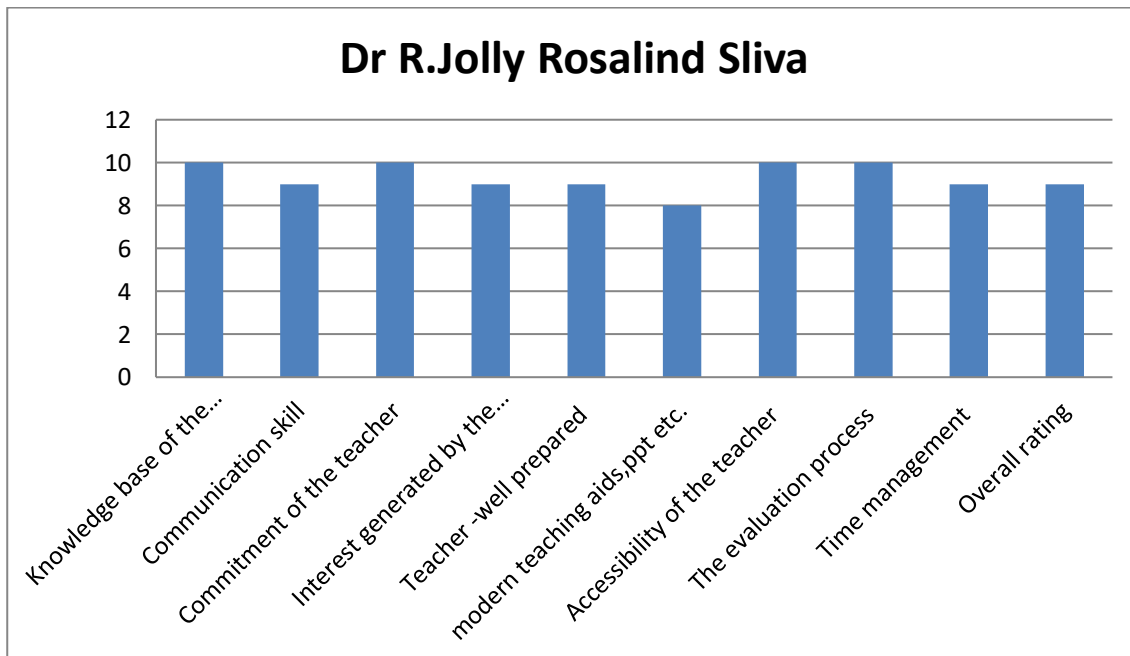

INTRODUCTION:

The students are supposed to be the most important stakeholders of Higher Education systems. The interest and participation of students at all levels in both internal quality assurance and external quality assurance have to play a central role. Any Higher Education Institution needs to ensure that students have a voice at various decisions making processes, formulating learning and teaching practices and those views of students are to be considered as the primary evidence on which the quality of teaching and learning is evaluated. The Student Feedback Approach is basically about institutional practices, processes and frameworks that take into account students concerns of the quality of the education they receive. In each section, the report includes findings of the top tasks which candidates feel the most and least prepared in.

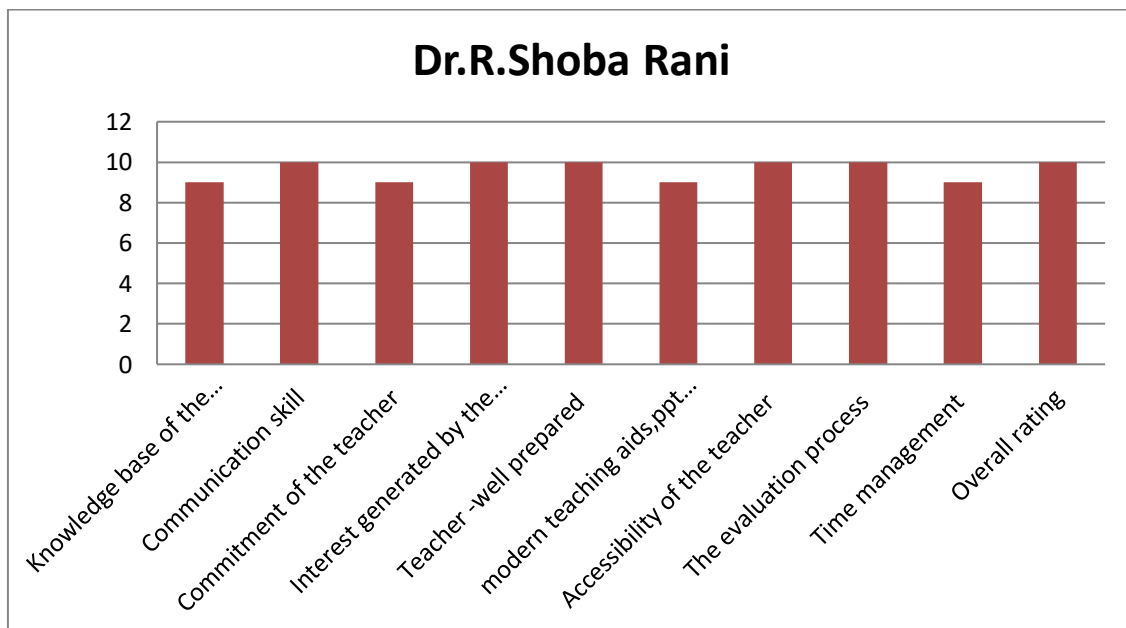

The main objectives of the feedback system are as follows:

- To provide the platform to the students in identifying a greater role in the teaching learning process.
- To help the faculty modification and improvement in the teaching methodology at the College.
- To develop a communication channel between the management and students.
- To maintain the functioning of the College system in the field of teaching learning process, library, sports, administration, etc at its level best.

Conclusion:

The various graphs present the views expressed by present students in regard to their perception of quality in an educational institution. More than 75% students are satisfied with their teaching methodology of our college. The quality of education depended on the overall academic environment of the institution, a well-furnished and stocked library, Necessary computer facilities, and well-equipped labs are the infrastructural priorities. The quality education could come only if there were quality teachers who were good communicators. The output shows a very good environment of teaching at Nanjil College. The staff those who need improvement are requested to deliver the course efficiency after well preparation.

DEPARTMENT OF SOCIAL WORK
STUDENT FEEDBACK ON TEACHERS REPORT 2023-2024
(ODD SEMESTER)**

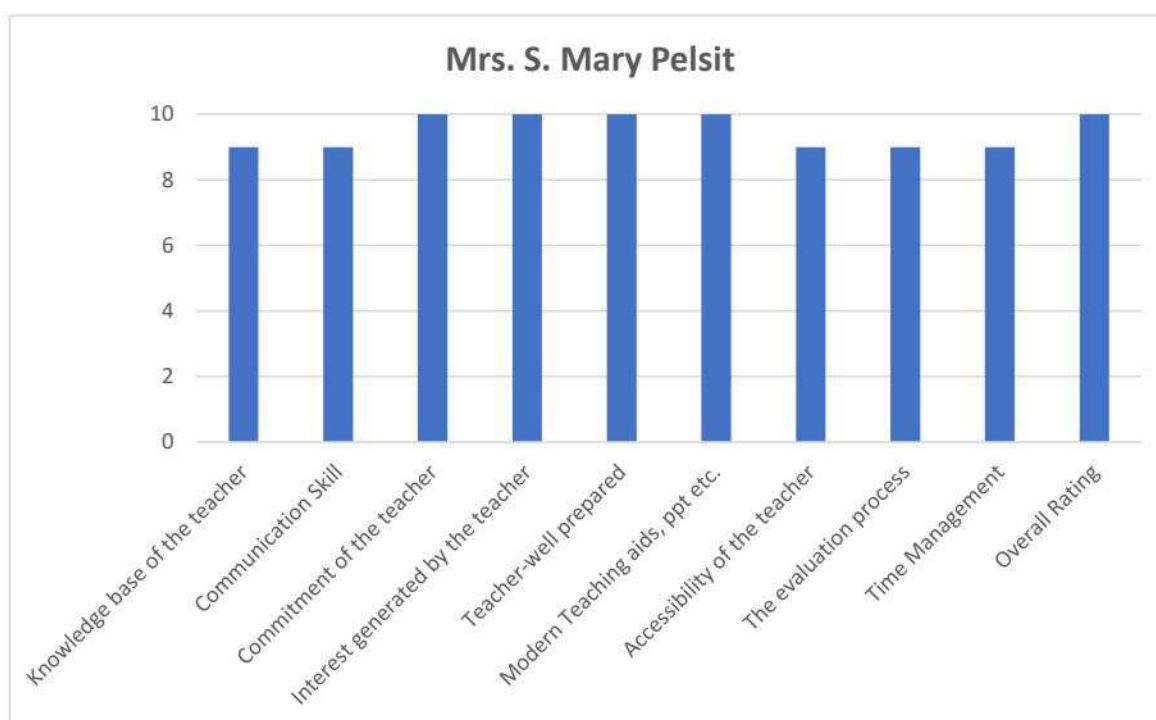

INTRODUCTION:

Students, as the direct beneficiaries of higher education, should be at the heart of quality assurance systems. Their insights and experiences provide invaluable feedback on the effectiveness of teaching and learning practices. By actively involving students in both internal and external quality assurance processes, institutions can ensure that the programs meet their needs and expectations. This involvement can take various forms, such as participation in decision-making committees, feedback on curriculum design, and evaluation of teaching methods. By considering students' perspectives as primary evidence of quality, institutions can make informed decisions to improve their programs and better serve their students. The Student Feedback Approach is a valuable tool in this regard, as it focuses on institutional practices and frameworks that address students' concerns about the quality of their education. By analyzing student feedback on specific tasks and areas of preparation, institutions can identify strengths and weaknesses, and take targeted measures to enhance the overall quality of their programs.

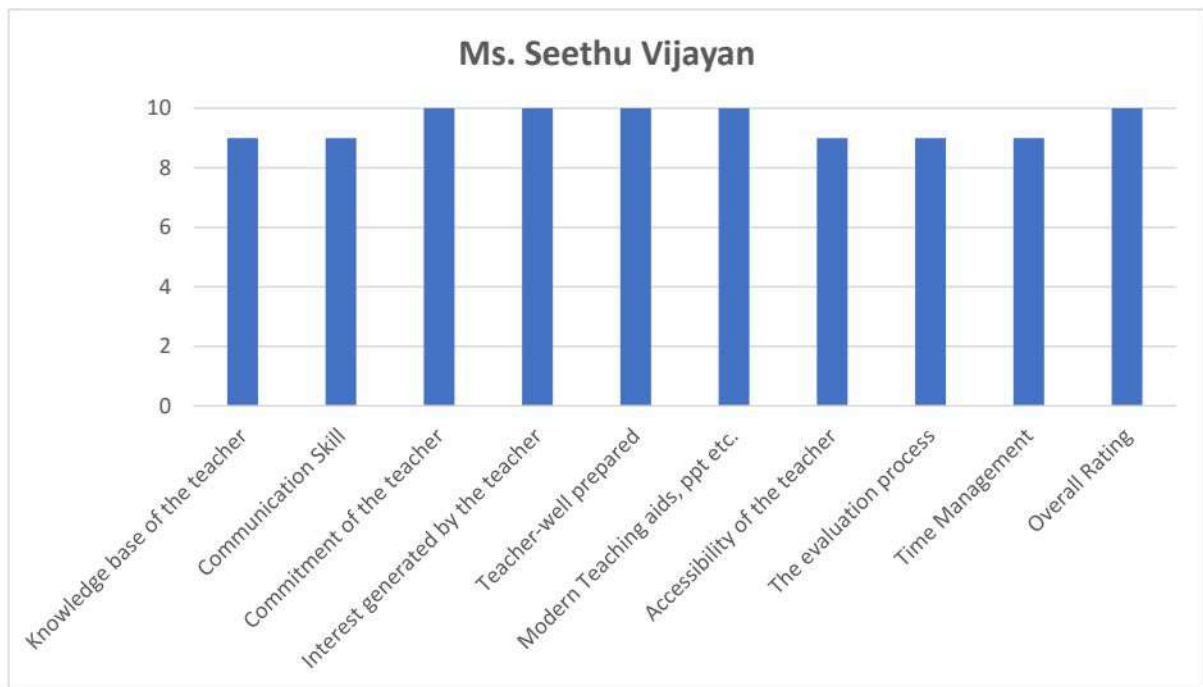

OBJECTIVES:

- Student Empowerment: Provide opportunities for students to actively participate and contribute to the teaching-learning process.
- Faculty Development: Support faculty in refining and improving teaching methods.
- Open Communication: Establish a transparent communication channel between management and students.
- Operational Excellence: Ensure smooth functioning of all college systems.

CONCLUSION:

The students were asked to complete feedback forms that assessed the performance of their teachers in relation to specific quality outcomes. These outcomes included the teacher's knowledge of the subject matter, communication skills, commitment to their students, ability to generate interest in the course, use of information and communication technology (ICT), teaching methods, accessibility, and overall results achieved. After analyzing the feedback, it was found that the students were overwhelmingly satisfied with the teaching methodologies employed by the faculty. This positive evaluation suggests that the teachers were effectively conveying their knowledge, engaging with students, and facilitating a productive learning environment.

STUDENTS FEEDBACK ON TEACHERS REPORT

2023-2024 (EVEN)

The students are supposed to be the most important stakeholders of Higher Education systems. The interest and participation of students at all levels in both internal quality assurance and external quality assurance have to play a central role. Any Higher Education Institution needs to ensure that students have a voice at various decisions making processes, formulating learning and teaching practices and those views of students are to be considered as the primary evidence on which the quality of teaching and learning is evaluated. The Student Feedback Approach is basically about institutional practices, processes and frameworks that take into account students concerns of the quality of the education they receive. In each section, the report includes findings of the top tasks which candidates feel the most and least prepared in.

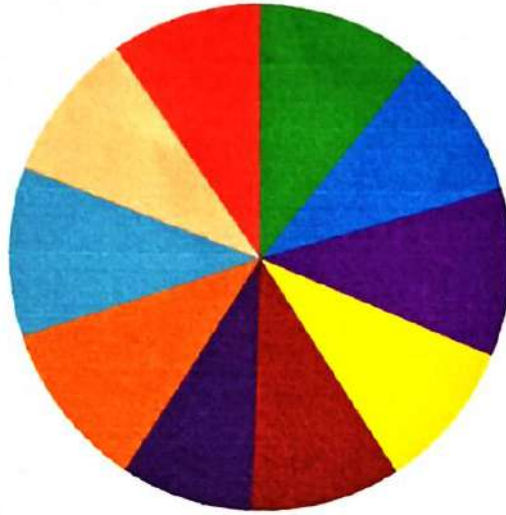

The main objectives of the feedback system are as follows:

- To provide the platform to the students in identifying a greater role in the teaching learning process.
- To help the faculty modification and improvement in the teaching methodology at the College.
- To develop a communication channel between the management and students.

- To maintain the functioning of the College system in the field of teaching learning process, library, sports, administration, etc at its level best.

STUDENTS FEEDBACK ON TEACHERS REPORT (2023-2024, EVEN)

INTRODUCTION:

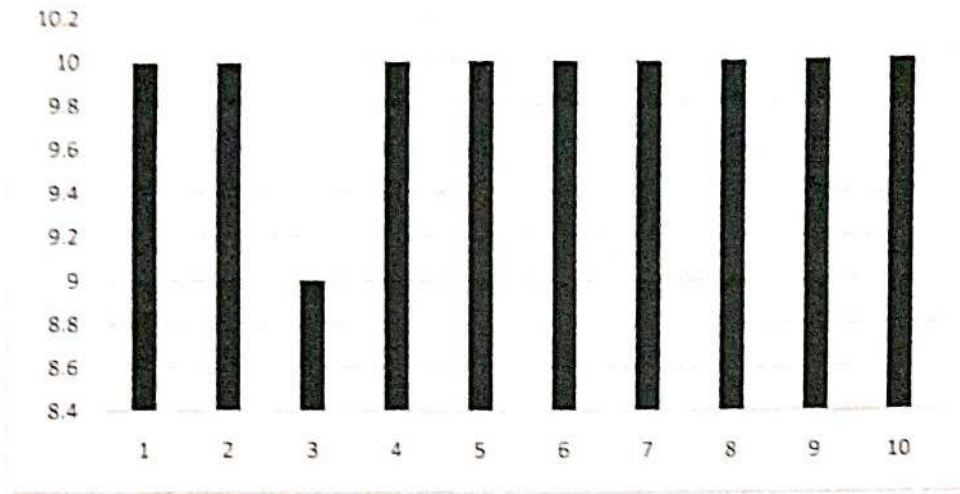

The students are supposed to be the most important source of Higher Education systems. The interest and participation of students at all levels in both internal quality assurance and external quality assurance play a central role. Any Higher Education Institution needs to ensure that students have a voice at various decisions making processes, formulating learning and teaching practices and those views of students are to be considered as the primary evidence on which the quality of teaching and learning is evaluated. The Student Feedback Approach is basically about institutional practices, processes and frameworks that take into account students concerns of the quality of the education they receive. Department of English has nine staff who give significant to the views and suggestions of students for their development. In each section, the report includes findings of the top tasks which candidates feel the most and least prepared in.

The Main Objectives of the feedback system are as follows:

- To provide the platform to the students in identifying a greater role in the teaching learning process.
- To help the faculty modification and improvement in the teaching methodology at the College.
- To develop a communication channel between the management and students.
- To maintain the functioning of the College system in the field of teaching learning process, library, sports, administration, etc at its level best.

TEACHERS FEEDBACK 2023-2024 (Even Semester)

ACTION TAKEN REPORT

In the Academic year 2023-2024 majority of the staffs secured good scores for the questions from 1-10. The teachers were also asked to explain what is expected an assignments and test. The students expected the teachers to encourage them to refer books and articles, motivate them to study regularly and to improve their communication skills. The teachers were instructed to use more modern teaching aids, handouts, PPT and good rapport between them and students. The teachers accepted to improve themselves.

Students Feed Back on Teachers Report

INTRODUCTION:

The focus should be on encouraging existing strengths when providing feedback to a teacher who just needs a nudge. Provide encouraging feedback while gently guiding them towards improvement in specific areas.

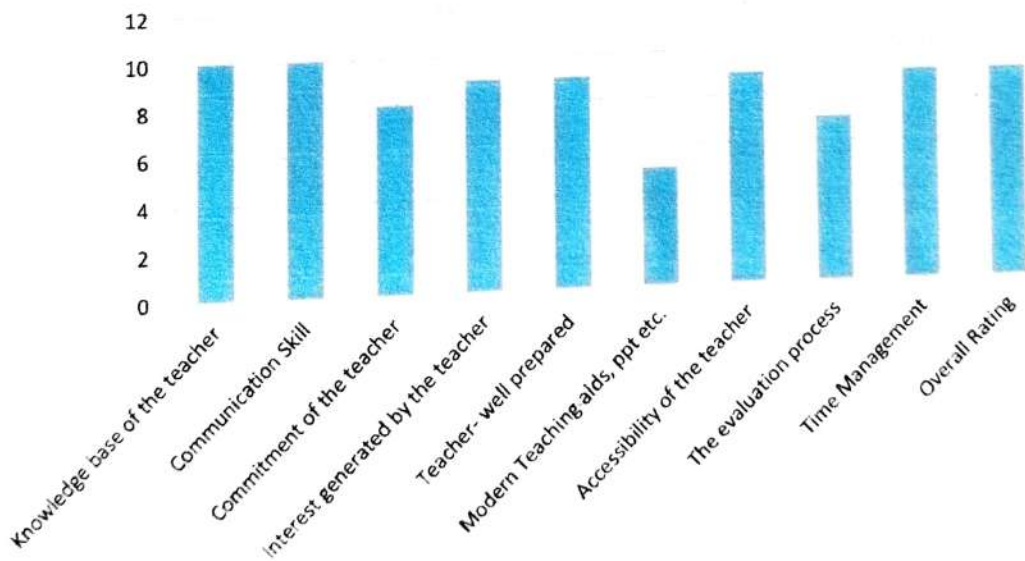

1. You have established a positive classroom atmosphere. Let's explore ways to further foster a growth mind-set among students.
2. Your use of multimedia resources effectively enhances lessons. Can you think of additional ways to integrate technology for interactive learning?
3. Your lessons are well-structured. Consider incorporating more opportunities for **inquiry-based learning**.
4. I've noticed that students enjoy your class discussions, although not all take part. Consider finding ways to encourage all students to participate actively.
5. Your passion for teaching is evident. However, allowing students to ask clarifying questions will make the learning experience more interactive and engaging.
6. You have a strong ability to identify struggling students. It will be great to design targeted interventions to support their needs.
7. Your communication with parents is consistent. Consider incorporating positive anecdotes about student progress in your updates.
8. Your classroom routines are effective, and to further make them even more impactful, consider using transition times to promote student self-assessment.
9. Your assessments are well-designed. Let's explore **formative assessment** strategies to provide more immediate feedback to students.
10. Your commitment to continuous improvement is admirable. However, setting specific professional development goals to enhance your teaching practices is beneficial.

Conclusion:

The various graphs present the views expressed by present students in regard to their perception of quality in an educational institution. More than 75% of our students felt that the Knowledge base of 85% teachers is so good and Communication skill of our teachers is accepted by 90% of students. According to department of Mathematics, the commitment of the teachers is reach 100%. Also, 80% of our staff generates interest in subjects for all the students. All students accepted that all the subject teachers well prepared by teachers teach the topics with teaching aids and power point presentation. All the teachers submit the internal assessments on time and all the teachers completed the portions on time and therefore they can revise the syllabus before the university examination. Thus students conclude that the teachers in department of Mathematics is over all satisfied.

Students Feed Back on Teachers Action Taken Report

In the academic year 2023-2024, when comparing the overall values from 1st to 10th question, all got almost high value. Staff those who got low values were instructed to improve good report from teachers and the students. The teacher were also asked to explain what is expected on assignment and internal examination. The students expected the teachers to encourage them to refer text books and articles, motivate them to study regularly and to improve their communication skills. The teacher were instructed to use more PPT's and Teaching Aids. The teachers accepted to improve themselves.

STUDENTS FEEDBACK ON TEACHERS REPORT

2023-2024 (EVEN)

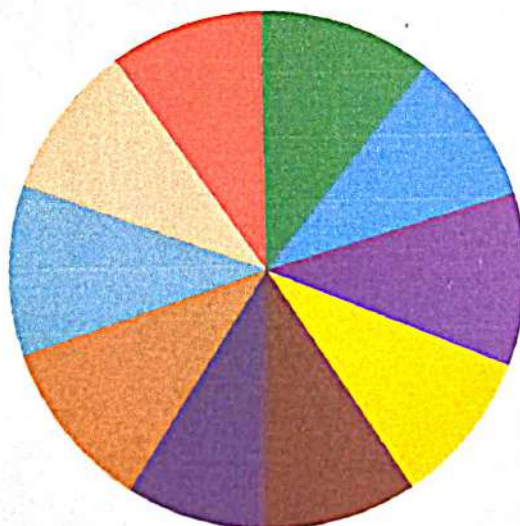

The students are supposed to be the most important stakeholders of Higher Education systems. The interest and participation of students at all levels in both internal quality assurance and external quality assurance have to play a central role. Any Higher Education Institution needs to ensure that students have a voice at various decisions making processes, formulating learning and teaching practices and those views of students are to be considered as the primary evidence on which the quality of teaching and learning is evaluated. The Student Feedback Approach is basically about institutional practices, processes and frameworks that take into account students concerns of the quality of the education they receive. In each section, the report includes findings of the top tasks which candidates feel the most and least prepared in.

The main objectives of the feedback system are as follows:

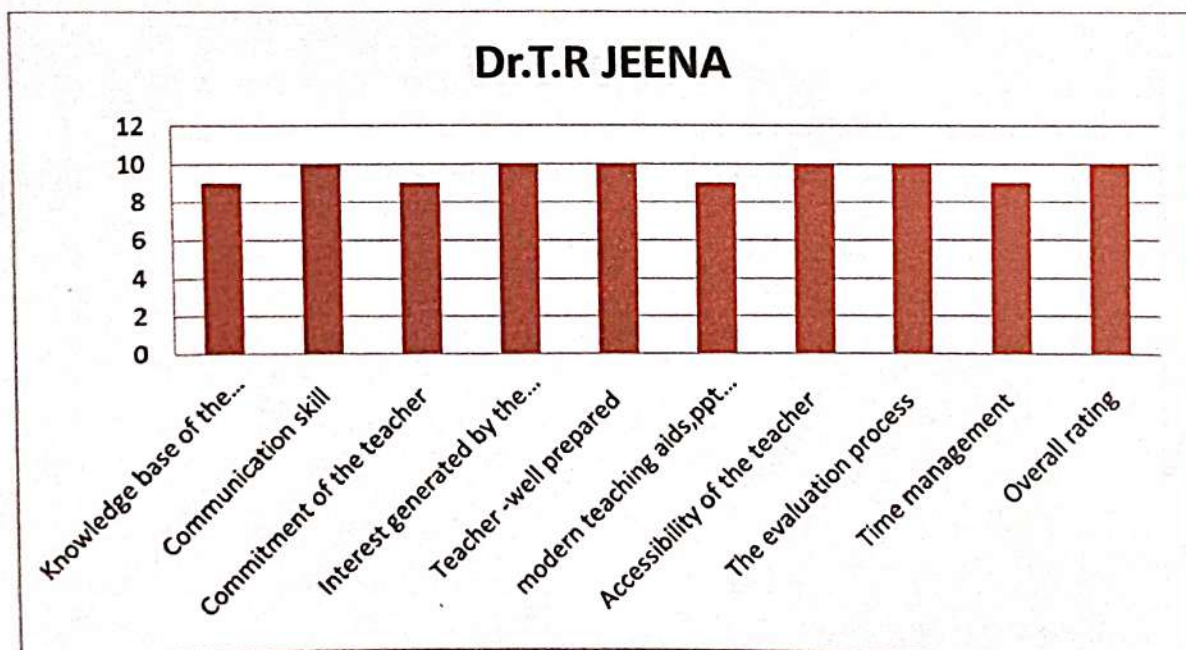

- To provide the platform to the students in identifying a greater role in the teaching learning process.
- To help the faculty modification and improvement in the teaching methodology at the College.
- To develop a communication channel between the management and students.
- To maintain the functioning of the College system in the field of teaching learning process, library, sports, administration, etc at its level best.

The various graphs present the views expressed by present students in regard to their perception of quality in an educational institution. More than 90% students are satisfied with their teaching methodology of our college. The quality of education depended on the overall academic environment of the institution, a well-furnished and stocked library, Necessary computer facilities, and well-equipped labs are the infrastructural priorities. The quality education could come only if there were quality teachers who were good communicators. The output shows a very good environment of teaching at Nanjil College. The staff those who need improvement are requested to deliver the course efficiency after well preparation.

STUDENTS FEEDBACK ON TEACHERS : 2023-2024 (EVEN)

In the department of chemistry 6 staff worked in the year 2023-2024. All the students of chemistry department told that the teachers always prepared for the classes. They covered the entire syllabus as prescribed by the university. Teachers were managed and motivated the students to study regularly. All were creative in developing activities and lessons. They encouraged the students to speak up and be active in the class. Teachers were good in technical content, communication skills and using of non print teaching aids. Teachers are always respected the opinions and decisions of the students. Their words and actions were seemed to be matched. Their voice was audible and consistent and fair in discipline. They helped the students when they ask for help. The students trusted the teachers.

From the report of chemistry students feedback on teachers overall values are shown in the graph. When comparing the overall values of 1 question, Dr.R. Murali, Dr. T. Alwin and Dr.Agatha got high value and Dr. K. Priya Rajini got low value. For the second question Dr.Murali and Dr. M. Mary Sheeba got high value and Dr. Priya got low value. For the third question Dr.Mary Sheeba got high value and Dr.Agatha got low value. For the fourth question Dr.Alwin and Dr.Mary Sheeba got high value. For the fifth question Mrs.Shirly got high value. For the sixth question Mrs.Shirley got high value. For the seventh question Dr.Mary Sheeba got high value. For the eighth question Mrs.Shirley and Dr.Alwin got high value. For the ninth question Dr.Priya got low value. For the tenth question Dr.R. Murali and Mrs.Shirley got high value. Staff those who got low values are instructed to improve them self. They all accepted.

STUDENTS FEEDBACK ON TEACHERS: 2023 -2024 (EVEN)

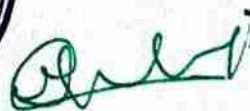

ACTION TAKEN REPORT

In the academic year 2023-24, we collected feedback forms from the students about teachers. After analyzing the feedback, it was suggested that some teachers should improve their communication skill. The students expected the teachers to have accessibility in and out of the class. The teachers were asked to manage the time properly to complete the syllabus. The teachers were suggested to prepare well before entering a class. All the teachers agreed to do according to the suggestions.

Department of Computer Science Students Feedback on Teachers 2023 - 2024 (Even Semester)

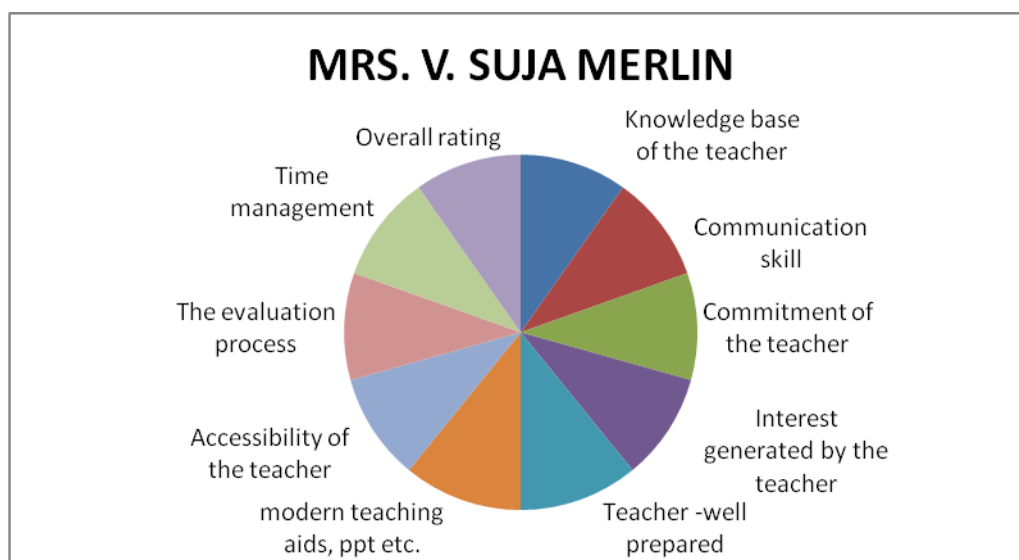

INTRODUCTION:

Feedback is a key element of the incremental process of ongoing learning and assessment. Providing frequent and ongoing feedback is a significant means of improving achievement in learning. It involves the provision of information about aspects of understanding and performance and can be given by practitioners, peers, oneself and from learners to practitioners. Effective feedback assists the learner to reflect on their learning and their learning strategies so they can make adjustments to make better progress in their learning. It is essential to know the strengths of teachers and those aspects of their practice which could be further developed.

From this perspective, the institution of teacher evaluation is a vital step in the drive to improve the effectiveness of teaching and learning and raise educational standards. Meaningful teacher evaluation involves an accurate appraisal of the effectiveness of teaching, its strengths and areas for development, followed by feedback, coaching, support and opportunities for professional development. It is also essential to celebrate, recognize and reward the work of teachers.

Conclusion:

The analysis reflects 99% of the students strongly agreed to the fact that the syllabus was explained in detailed at the beginning of the session. Most of the students were satisfied with the institutional practice of evaluation criteria for internal examination, internal assessment and practical examination. Regarding the completion of syllabus before the examination, 100% of the students agreed that the syllabus was timely completed while the rest replied neutrally. The feedback was taken ten-point scale i.e., 1-3 in high range 4,5 in satisfactory ,6 is in average and remaining points are below average. The student feedback was satisfying with most of the students being happy about the different dimensions of the syllabus. The feedback has proved the satisfaction of the students, regarding the teachers overall classroom activities and approaches.

Student feedback On Teacher

Action taken Report - Even Semester

The feedback on curriculum from students was obtained after the end of each academic session. Students opinion on syllabus was measured in a four-point scale (strongly agree, agree, disagree, and strongly disagree) for analysis, a random sample of feedback of 21 students from the Department was selected with a proportional representation to each program. The data collected has been analyzed and the results given below:

The analysis of the results indicates that students have rated Size of syllabus in term of the load to be average. The objectives stated for each of the course are clear and opportunity to developing skills, Easy availability of study materials and Relevance of the course for providing employability in the curriculum as mostly average All the students reported that the teachers provide them with sufficient study materials but they also wanted the library to be more equipped. The entire syllabus was covered by the teacher

Action taken:

Experiential learning practices were implemented in regular teaching.
Extra practical sessions were arranged.

Report- Students Feedback on Teachers

The institution collects feedback on teaching from students. Once the feedback is analyzed and given suggestions are considered, then necessary action is taken. All students were provided the form and their feedback were collected. The analysis of the students' feedback clearly depicts that they are well satisfied with the teachers. The students highly appreciated the commitment, communication skill, knowledge base, time management, etc. It is observed from the students' feedback that few of them expressed the need of more ICT classes.

The analysis of the students' responses was presented below in the figures.

Action Taken Report- Students Feedback on Teachers

On the basis of the student feedback on teachers various actions taken by the Department are:

- In the teaching-learning experience, students are satisfied with their experience; however certain percentage of students felt that the classes should be more interactive.
- Hence it was decided that in order to make classes more interactive, teachers would further enhance their teaching learning pedagogy techniques.
- The faculty will use more and more ICT tools wherever feasible For extracurricular activities

STUDENTS FEEDBACK ON TEACHERS REPORT -2023-2024(EVEN)

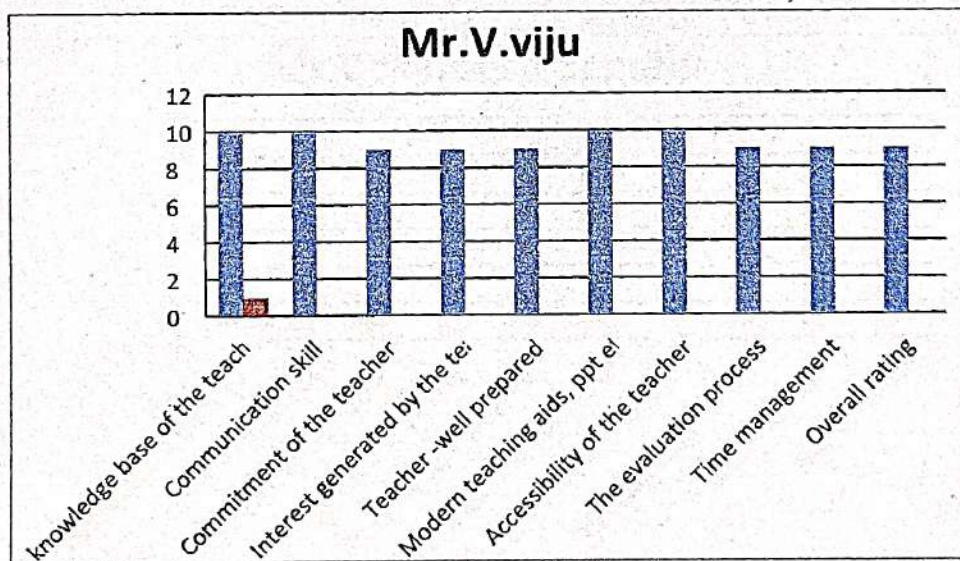

INTRODUCTION

The students are supposed to be the most important stakeholders of Higher Education systems. The interest and participation of students at all levels in both internal quality assurance and external quality assurance have to play a central role. Any Higher Education Institution needs to ensure that students have a voice at various decisions making processes, formulating learning and teaching practices and those views of students are to be considered as the primary evidence on which the quality of teaching and learning is evaluated. The Student Feedback Approach is basically about institutional practices, processes and frameworks that take into account students concerns of the quality of the education they receive. In each section, the report includes findings of the top tasks which candidates feel the most and least prepared in.

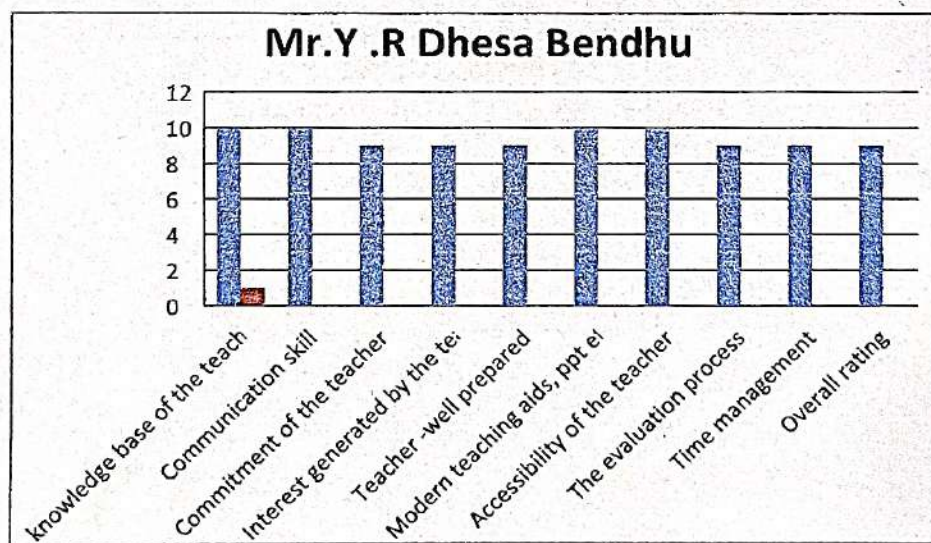

The main objectives of the feedback system are as follows:

- To provide the platform to the students in identifying a greater role in the teaching learning process
- To help the faculty modification and improvement in the teaching methodology at the College.
- To develop a communication channel between the management and students
- To maintain the functioning of the College system in the field of teaching learning process, library, sports, administration, etc at its level best.

Conclusion:

The various graphs present the views expressed by present students in regard to their perception of quality in an educational institution. More than 75% students are satisfied with their teaching methodology of our college. The quality of education depended on the overall academic environment of the institution, a well-furnished and stocked library, Necessary computer facilities, and well-equipped labs are the infrastructural priorities. The quality education could come only if there were quality teachers who were good communicators. The output shows a very good environment of teaching at Nanjil College. The staff those who need improvement are requested to deliver the course efficiency after well preparation.

Student feedback on Teachers Report 2023-2024

To improve students' performance, it is essential that they should understand the concepts related to the subject clearly. This can be achieved through effective teaching and by establishing good rapport between students and teachers so that they feel free to ask their difficulties. It is important to know students' expectations from teachers as well as the performance of the teacher from student's point of view. It is necessary to know if they are facing any difficulties. To improve the quality of teaching, it is essential to collect feedback of teachers from students. Feedback form consists of 10 parameter.

Attributes	RB	JB	VV	JJ
Knowledge base of the teacher	95	98	95	98
Communication Skill	93	93	89	87
Commitment of the teacher	86	92	85	90

Student feedback on Teachers Action taken Report

Based on the feedback collected from the students, the department took some actions that are listed below,

1. Power point presentation motivates students to take key points related with their study. Hence, number of PPT presentation per week was increased
2. Teachers evaluated the students based on the students learning skill to cope up with learning.
3. Teachers are motivated to use the college equipments in gathering information. They are asked to prepare more to cover all related concepts and topics about the subject.
4. Staff members are also encouraged to use innovative teaching methods like open classroom, interactive classrooms, group discussion etc.,

STUDENTS FEEDBACK ON TEACHERS REPORT

2023-2024 (EVEN SEMESTER)

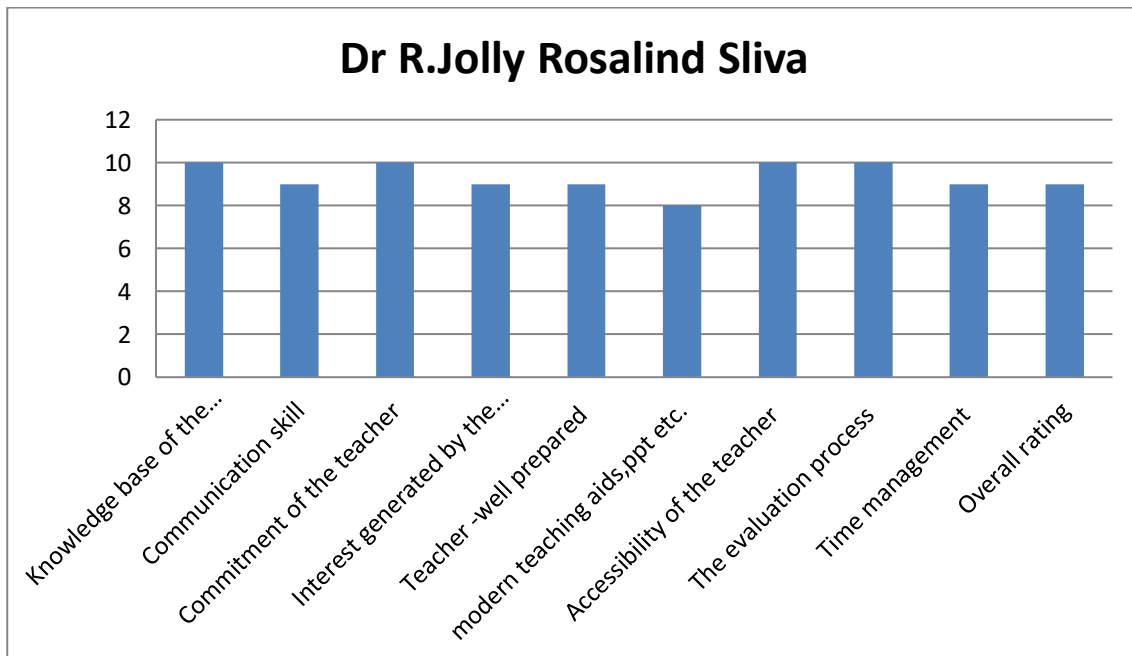

INTRODUCTION:

The students are supposed to be the most important stakeholders of Higher Education systems. The interest and participation of students at all levels in both internal quality assurance and external quality assurance have to play a central role. Any Higher Education Institution needs to ensure that students have a voice at various decisions making processes, formulating learning and teaching practices and those views of students are to be considered as the primary evidence on which the quality of teaching and learning is evaluated. The Student Feedback Approach is basically about institutional practices, processes and frameworks that take into account students concerns of the quality of the education they receive. In each section, the report includes findings of the top tasks which candidates feel the most and least prepared in.

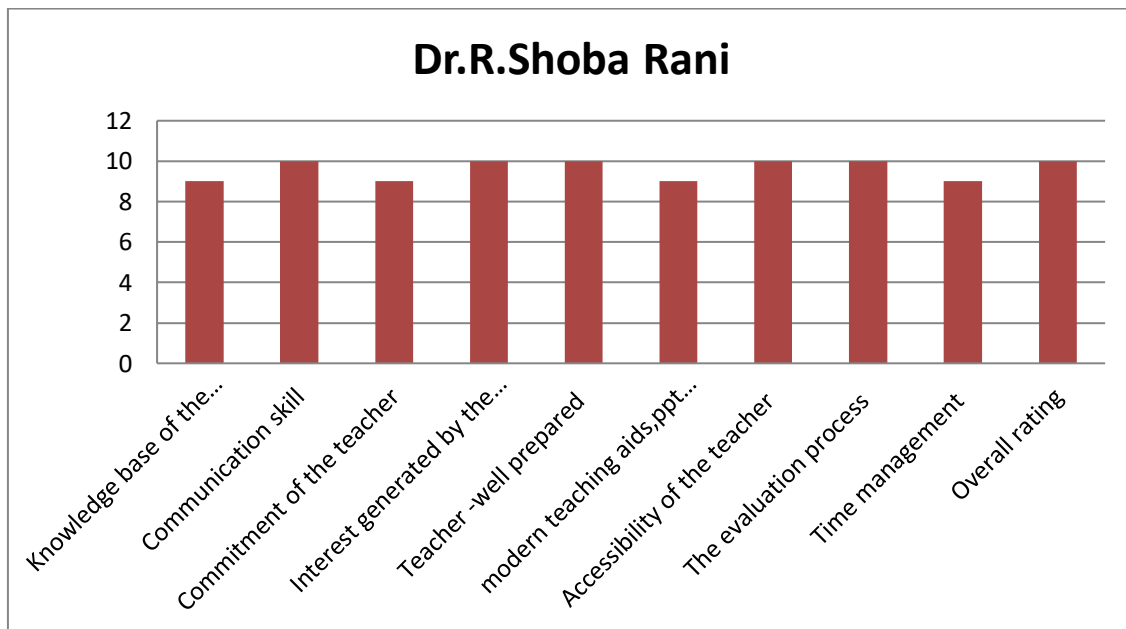

The main objectives of the feedback system are as follows:

- To provide the platform to the students in identifying a greater role in the teaching learning process.
- To help the faculty modification and improvement in the teaching methodology at the College.
- To develop a communication channel between the management and students.
- To maintain the functioning of the College system in the field of teaching learning process, library, sports, administration, etc at its level best.

Conclusion:

The various graphs present the views expressed by present students in regard to their perception of quality in an educational institution. More than 95% students are satisfied with their teaching methodology of our college. The quality of education depended on the overall academic environment of the institution, a well-furnished and stocked library, Necessary computer facilities, and well-equipped labs are the infrastructural priorities. The quality education could come only if there were quality teachers who were good communicators. The output shows a very good environment of teaching at Nanjil College. The staff those who need improvement are requested to deliver the course efficiency after well preparation.

DEPARTMENT OF SOCIAL WORK
STUDENT FEEDBACK ON TEACHERS REPORT 2023-2024
(EVEN SEMESTER)**

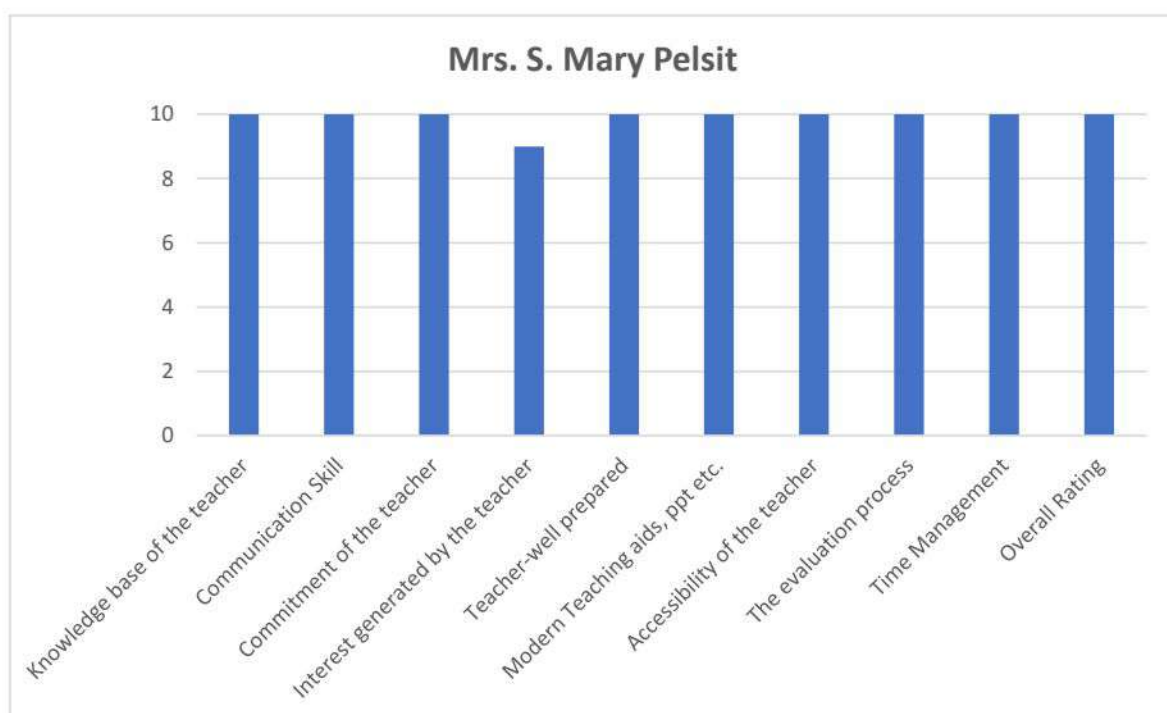

INTRODUCTION:

Students, as the direct beneficiaries of higher education, should be at the heart of quality assurance systems. Their insights and experiences provide invaluable feedback on the effectiveness of teaching and learning practices. By actively involving students in both internal and external quality assurance processes, institutions can ensure that the programs meet their needs and expectations. This involvement can take various forms, such as participation in decision-making committees, feedback on curriculum design, and evaluation of teaching methods. By considering students' perspectives as primary evidence of quality, institutions can make informed decisions to improve their programs and better serve their students. The Student Feedback Approach is a valuable tool in this regard, as it focuses on institutional practices and frameworks that address students' concerns about the quality of their education. By analyzing student feedback on specific tasks and areas of preparation, institutions can identify strengths and weaknesses, and take targeted measures to enhance the overall quality of their programs.

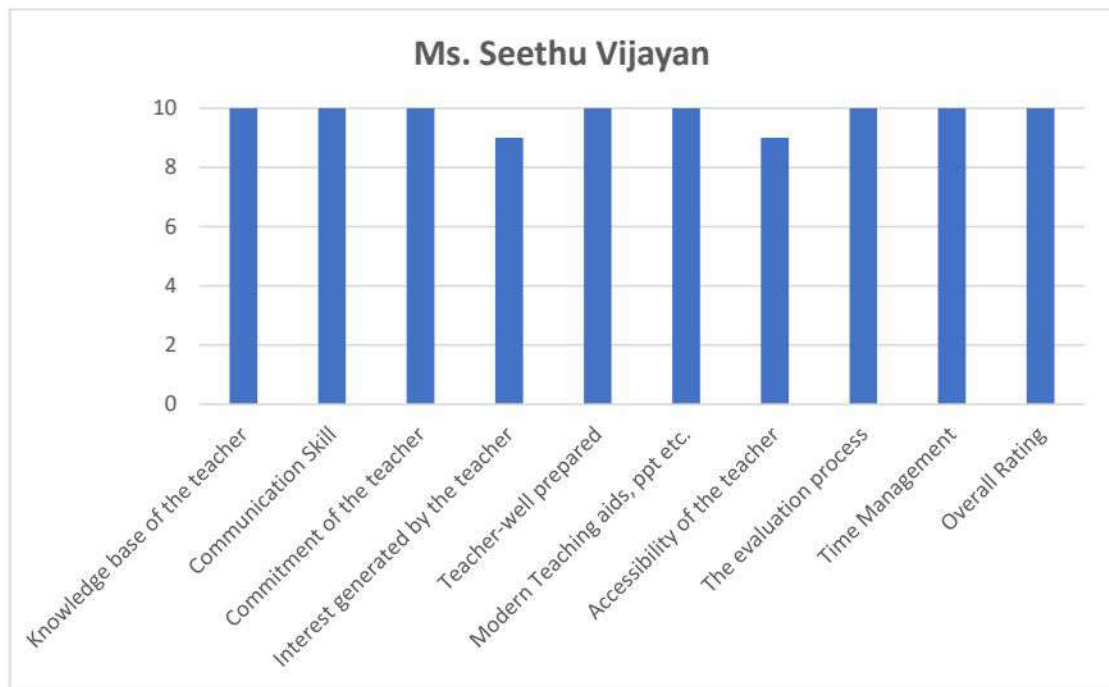

OBJECTIVES:

- Student Empowerment: Provide opportunities for students to actively participate and contribute to the teaching-learning process.
- Faculty Development: Support faculty in refining and improving teaching methods.
- Open Communication: Establish a transparent communication channel between management and students.
- Operational Excellence: Ensure smooth functioning of all college systems.

CONCLUSION:

The students were asked to complete feedback forms that assessed the performance of their teachers in relation to specific quality outcomes. These outcomes included the teacher's knowledge of the subject matter, communication skills, commitment to their students, ability to generate interest in the course, use of information and communication technology (ICT), teaching methods, accessibility, and overall results achieved. After analyzing the feedback, it was found that the students were overwhelmingly satisfied with the teaching methodologies employed by the faculty. This positive evaluation suggests that the teachers were effectively conveying their knowledge, engaging with students, and facilitating a productive learning environment.

DEPARTMENT OF SOCIAL WORK

**ACTION TAKEN REPORT BASED ON STUDENT FEEDBACK ON TEACHERS
(2023-2024)**

The students in the department of social work provided comprehensive feedback on their teachers, evaluating them against various criteria. These criteria included the teachers' knowledge base, their communication skills, their commitment to their roles, their ability to generate student interest, their use of modern teaching techniques, their accessibility to students, their time management skills, and their evaluation processes. Upon analyzing this feedback, it became evident that all the students were highly satisfied with the teaching methods employed by the faculty. Based on these positive assessments, the department of social work decided to implement a new approach, incorporating practical-based theory classes into the curriculum. This decision was made in response to the students' positive feedback and with the aim of enhancing the learning experience and practical application of the subject matter.
