That is , brain, heart and lung problems, stroke, and damage to the liver and kidneys and much more . So he asked the students to avoid such habit.

Our College principal Dr. M. Amalanathan addressed about the consequences of drug addiction such as destructive to individuals, families, and entire communities. It eats away at a person's health, behavior, and family life, goals, and hope for the future. He asked the students , be aware and help others to avoid such habit. He mentioned about the steps taken by the college management to create a drug free camps .

The person may also have frequent mood swings and a short temper, while at other times, appearing anxious or depressed. She asked the students to keep away from such habit and help people take hold of their recovery. In the end of meeting students took pledge against drug abuse.
