DEPARTMENT OF SOCIAL WORK

ACTION TAKEN REPORT BASED ON STUDENTS FEEDBACK

ODD SEM (2023-2024)

The students provided feedback about the syllabus size, clarity of course objectives, and how well the teacher covered the entire syllabus. Their analysis of these points demonstrates their concern about the syllabus. Teachers were able to persuade the students about the importance of the syllabus for their future programs and the necessity of achieving its objectives by noting how they responded to feedback. Social work trainee students must engage in hands-on field experiences in addition to following the curriculum. Teachers encourage them to take practical activities seriously and offer ample opportunities for self-exploration in the field. In order to help students achieve academic success, the teacher supplied ample study materials and encouraged them to make use of the college library.
