Teacher feedback Action taken Report Odd Semester

Feedback from the teachers were collected and analyzed and has been represented graphically. The teachers rated the adequacy, they pointed out the imbalance between portions to be covered and the time allotted for the same. The teachers also expressed need for enrichment of the library resources and provision for conducting special lectures for completion of the curriculum.

Action taken

The university authorities were intimated about the feedback. Computer laboratories were started in the department of Mathematics and Commerce. Necessary initiatives were taken to establish computer laboratories and purchase of books for the library. Teachers took extra classes and remedial classes to address the issue. The issue regarding introduction of interdisciplinary courses and provision of sufficient courses were addressed as the university decided to implement Choice Based Credit System (CBCS) which would provide greater opportunity to the students for interdisciplinary choices.
