- In Elective- 1, if 1.3. Python Programming-Theory is chosen then in Elective-2, 2.3. Python Programming-Practicals is Compulsory.
- Project credit is increased to create awareness on Research among students.

Title of the Course : **PROJECT**(150 Hours)

Course Objective : To enrich the research interest and to create innovative ideas.

### Course Outcomes(COs)

On successful completion of the course, the students will be able to

	Course outcome	Cognitive Level
CO 1	Differentiate primary and secondary data and questionnaire	K-2
CO 2	Explain about research methodology	K-3
CO 3	Read articles and write a new article.	K-3
CO 4	Know about the bibliography	K-3
CO 5	Know how to write dissertations and present a paper in conferences.	K-3

K-1: Remembering; K-2: Understanding; K-3: Applying; K-4: Analyzing; K-5: Evaluating; K-6:Creating.

**MANONMANIAM SUNDARANAR UNIVERSITY, TIRUNELVELI**

**B.Sc.CHEMISTRY (Affiliated Colleges)**

**LEARNING OUTCOME BASED CURRICULUM**

**(For those who joined from 2021-2022 onwards)**

**VISION AND MISSION OF THE UNIVERSITY**

***VISION***

" To provide quality education to reach the unreached "

***MISSION***

- To conduct research, teaching and outreach programmes to improve conditions of human living
- To create an academic environment that honours women and men of all races, caste, creed, cultures and an atmosphere that values intellectual curiosity, pursuit of knowledge, academic freedom and integrity
- To offer a wide variety of off-campus educational and training programs, including the use of information technology, to individuals and groups.
- To develop partnership with industries and government so as to improve the quality of the workplace and to serve as catalyst for economic and cultural development
- To provide quality / inclusive education, especially for the rural and un-reached segments of economically downtrodden students including women, socially oppressed and differently abled

**VISION AND MISSION OF DEPARTMENT**

***VISION***

To make the students excel in the fields of education, fundamental and advanced research in Chemistry by providing quality education so that they can compete and contribute to the varying *technology*.

***MISSION***

1. To teach the students to analyze problems ranging from the basics of Chemistry to advanced level.
2. To give the students adequate hands on experience to work in applied fields.

3. To train the students to act as a useful member or effective leader of a team in multidisciplinary setting.

### **PREAMBLE**

The B.Sc Chemistry programme is fundamental to the revolution taking place in Science and Technology. The aim of the programme is to impart basic skills and knowledge on the principles of all branches of Chemistry to cater to need of Society, Scientific Organization and Industries in the context of developing needs of our country by providing extensive coverage on the fundamental aspects of chemistry relating applications of chemistry to life systems. This course provides intensive practical training to develop associate and apply various aspects of chemistry in day to day life .The programme prepares the students to achieve success in competitive examinations and make developments of needs of their life.

### **Eligibility for the B.Sc Chemistry Programme**

B.Sc Chemistry is a three year Undergraduate course which one can apply after completing 12<sup>th</sup> from science stream. Eligibility for the course says that the interested must have science with subjects as Physics, Chemistry, Mathematics, Biology or Computer Science as their main subjects from any recognized board.

(Choice Based Credit System)  
(For those who joined from 2021- 2022 onwards)

**VISION OF THE UNIVERSITY**

To provide quality education to reach the un-reached.

**MISSION OF THE UNIVERSITY**

- To conduct research, teaching and outreach programmes to improve conditions of human living.
- To create an academic environment that honours women and men of all races, caste, creed, cultures and an atmosphere that values intellectual curiosity, pursuit of knowledge, academic freedom and integrity.
- To offer a wide variety of off-campus educational and training programs, including the use of information technology, to individuals and groups.
- To develop partnership with industries and government so as to improve the quality of the workplace and to serve as catalyst for economic and cultural development.
- To provide quality/inclusive education, especially for the rural and un-reached segments of economically downtrodden students including women, socially oppressed and differently abled.

**PREAMBLE**

All the changes in life in one-way or other involve chemistry. Chemistry is central to the current revolutions in science. No educated person today can understand the modern world without a basic knowledge of chemistry. The existence of a large number of chemical factories, mines and related industries necessitates chemistry education. An advanced course in chemistry will be a fascinating experience because it helps us understanding our surroundings. Hence, the Programme M.Sc. (Chemistry) is offered to meet current needs of aspiring youths and also create awareness about the in-depth scientific aspects to the society.

**ELIGIBILITY**

A Bachelor's degree in B. Sc Chemistry.

**VISION OF THE PROGRAMME**

Provide quality education and training in the field of chemistry to enable successful careers for the post graduate students in the field of education, research and industry applications of chemical science.

**MISSION OF THE PROGRAMME**

- To empower the youth through quality education and to provide professional leadership.
- To train and mentor students to become technically competent, responsible scientists, scientifically literate professionals and strong academicians who will constructively contribute to the overall growth of the society.
- To usher in construction of the thinking of students to scientifically tackle modern problems and global challenges.

**PROGRAMME EDUCATIONAL OBJECTIVES (PEOs)**

- PEO1: To impart knowledge in fundamental aspects of all branches of chemistry
- PEO2: To acquire deep knowledge in the study of spectroscopy, Disconnection approach, Synthetic chemistry, Coordination chemistry, Inorganic polymers, Group theory, Quantum chemistry, etc.
- PEO3: To acquire knowledge in the specialized areas of chemistry like Green chemistry, Nanoscience and Nanotechnology, Chemistry of Industrial products, Medicinal chemistry, Industrial processes, Catalysis, Forensic chemistry.
- PEO4: To impart the basic analytical and technical skills to work effectively in the various fields of chemistry.
- PEO5: To motivate critical thinking and analysis skills to solve complex chemical problems, e.g., analysis of data, synthetic logic, spectroscopy, structure and modeling, team-based problem solving, etc.
- PEO6: To enable the students to be competent, creative and highly valued professionals in industry, academia or government.

**PROGRAMME OUTCOMES (POs):**

On successful completion of the Programme, students will be able to

- PO1: Function as responsible individuals with ethical values, accountable to the community.
- PO2: Gain detailed knowledge of the major areas of chemistry including a wide range of factual information and experimentally observed phenomena.
- PO3: Apply chemical concepts in new situations and computational software in chemistry efficiently.
- PO4: Think critically and analyze chemical problems.
- PO5: Work effectively and safely in a laboratory environment.
- PO6: Present scientific and technical information resulting from laboratory experimentation by means of oral presentation, scientific poster or a written report.
- PO7: Pursue higher education / employable/ entrepreneur.
- PO8: Work in teams as well as independently in academia, industry or government.

**PROGRAMME SPECIFIC OUTCOMES (PSOs)**

Upon successful completion of M.Sc. Chemistry programme, graduates will be able to

- PSO1: Apply advanced concepts of organic, analytical, physical and inorganic chemistry to solve complex problems to improve human life.
- PSO2: Possess skill in spectral, analytical, qualitative and quantitative techniques which will be useful in industry.
- PSO3: Gain knowledge in recent and advanced developments in the area of Green Chemistry, Chemistry of Industrial products and formulation, Forensic Chemistry, Industrial Processes, Catalysis, Nanoscience and Nanotechnology, Medicinal Chemistry, Natural Products Chemistry, Bioinorganic Chemistry, Computational Chemistry, Contrasting agents in medical Diagnosis, Sensors etc.
- PSO4: Design a synthetic route for new compounds and transform innovative ideas into reality.
- PSO5: Be competent in problem solving, critical thinking and analytical reasoning as applied to scientific problems.
- PSO6: Acquire understanding of Plagiarism and Intellectual Property Rights.
- PSO7: Use Computational software in chemistry efficiently.

- PSO8: Carry out research / investigation independently to solve practical problems and write / present a substantial technical report/document.
- PSO9: Transform learned knowledge and skills to qualify in the NET and other competitive exams for higher studies and job.
