## **DEPARTMENT OF SOCIAL WORK**

### **Report on “Scientific Research Methodology – An outlook”**

#### **INTRODUCTION**

Research methodology is **a way to systematically solve the research problem**. It may be understood as a science of studying how research is done scientifically. In it we study the various steps that are generally adopted by a researcher in studying his research problem along with the logic behind them. The workshop on **“Scientific Research Methodology – An outlook”** was organized by the department of social work and research centre of Nanjil Catholic College of arts and science, Kaliyakkavilai on 08<sup>th</sup>, 10<sup>th</sup>, 11<sup>th</sup>, and 13<sup>th</sup> of March 2021 at 9.15am to 12.15pm. 25 MSW students participated in the workshop.

#### **OBJECTIVES**

- To understand what is research methodology.
- To analyse “Formulating a research problem.
- To know how to select a research problem.
- To understand consideration in selecting a research problem.
- To study the steps in formulating the research problem.
- Establishing operational definition.

#### **PERFORMED ACTIVITIES**

##### **Activity 1 – Day 1 - 08/03/2021- “Formulating a research problem”**

The workshop began with a prayer song by Ms. Bedsubha. D. S student of 1<sup>st</sup> MSW. Ms. Aquilin Bettila. A, the student of 1<sup>st</sup> MSW, delivered the welcome address. She welcomed the secretary Rev.Fr.Eckermens Micheal and the principal Dr.Meenakshi Sundara Rajan of Nanjil Catholic College of arts and science, Kaliyakkavilai. Then she welcomed Dr. Kildos. A, Post

Doctoral Fellow Centre for Development Studies Thiruvananthapuram and Mrs. S. Mary Pelsit, Head of the Department of social work and the staffs and all the participants.

The resource person Dr. Kildos. A interacted with the students and taught them about – Formulating a research problem, consideration in selecting a research problem, steps in formulating a research problem, the study population, establishing operational definition and constructs. After this section each students cleared their doubts by asking different questions on the above topics. Dr. A. Kildos cleared all our doubts by quoting suitable examples. Actually it was an eye opener on social work and research methodology. At the end of the section Ms.Thanisha.T.A, 1<sup>st</sup> MSW student delivered the vote of thanks. ## **OBSERVATION**

- Identify the Objectives.
- Establish Recording Method.
- Observes how the Questions and Techniques are made.
- Observe and Take Notes.
- Analyze Behaviors and Inferences.

## **LEARNING**

- Understood how to formulate a research methodology.
- Learned how the resource person interacted with the students in an effective manner.
- Learned how important the topics are in the present scenario.

## **FEEDBACK**

- Totally enjoyed and learned a lot in a comfortable environment. The style and the knowledge of the presenter, Dr. A Kildos was totally amazing.
- All very positive. Dr. A Kildos is a very inspirational and motivational speaker.
- An awesome work. Content was relevant and well presented.
- Packed a lot of information within a short time.
- Great interactive workshop. Left with concrete strategies – very useful information to apply immediately.
- Very enjoyable, good information and tools. Would recommend to others.
- Dr. A. Kildos was great as a presenter and delivered it clearly. Love all the resources and found it easy to follow. Looking forward to the next one.
- Dr. A. Kildos! Thanks, I found this day far more useful and relevant to my personal needs. Really enjoyed your interactions and free- spirited humour as well.

## CONCLUSION

Dr. Kildos. A. interacted with the students in between the workshop and cleared all the doubts. Participants gathered more information about **"Scientific Research and Methodology"**. The class was really an inspirational one. He gave notes in between the class. All the students were motivated with his valuable instances. A rapport was conducted throughout the class, so it was inspiring and valuable.

## Prospects of Research on Fiction

### Report

The Department of English, Nanjil Catholic College of Arts and Science, Kaliyakkavilai, organized a webinar on 6<sup>th</sup> October, 2021 in the topic "Prospects of Research on Fiction" with the objective of sharing knowledge to students, research scholars and faculties of different institutions and getting them enriched in the domain of research. The webinar was attended by 142 participants. The resource person for the webinar was Dr. S. Ayyappa Raja, Associate Professor of English & Zonal Coordinator-YRC, Annamalai University.

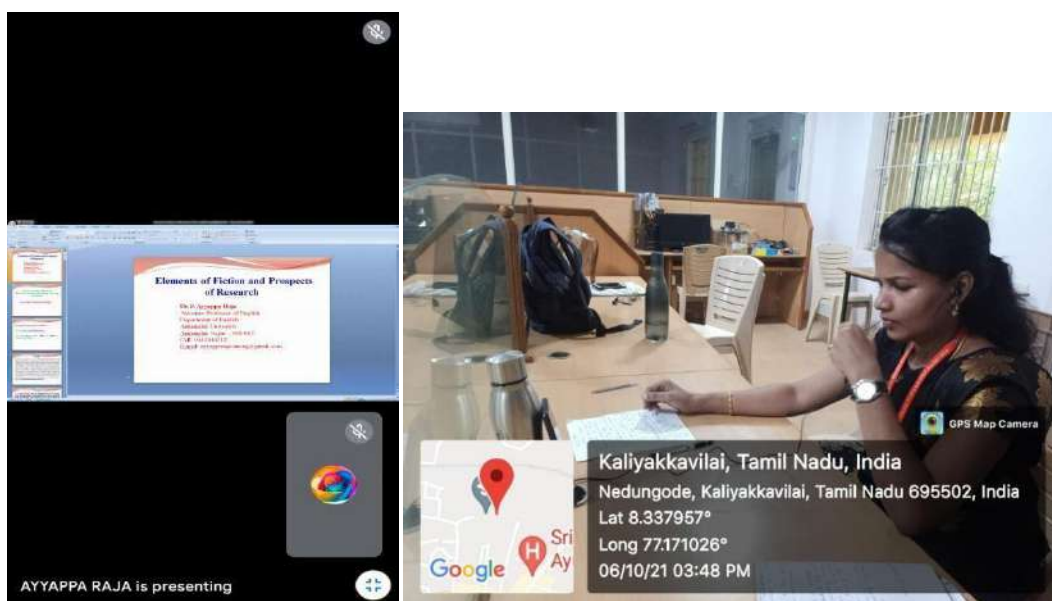

The webinar began at 2:15PM. The programme started with opening remarks delivered by Ms. Sajitha Sajan, Assistant Professor of English. It was followed by the welcome address from Dr. S. Angelin Femilet, Assistant Professor, Department of English. The principal of the college, Dr. A. Meenakshi Sundararajan MA, MLS., PhD., gave the inaugural address and conveyed his words of greetings. Ms. C. Subashini, Assistant Professor of English, introduced the chief guest of the programme.

The keynote address was given by the resource person Dr. S. Ayyappa Raja on the topic 'Elements of Fiction and Prospects of Research'. He began his presentation by talking about the purpose of reading a novel. Further he elucidated the differences between academic and creative writings. By presenting the traits of good literary work, he elaborated the prominent elements of fiction, detailing plot and characters in particular.

**NANJIL CATHOLIC COLLEGE OF ARTS & SCIENCE, KALIYAKKAVILAI**

**DEPARTMENT OF SOCIAL WORK**

**Report on “structure of the Government”**

**INTRODUCTION**

The social work department of Nanjil Catholic College of arts and science kaliyakkavilai and Active Forum conducted three days of webinar about three different topics. On the first day webinar is conducted on the topic of ‘**STRUCTURE OF THE GOVERNMENT**’ on **16/06/2021** at 3.00 pm . The study of governmental structures Must be approached with great caution, for political systems having the same kind of legal arrangements and using the same type of governmental machinery often function very differently second day of webinar is about ' **LAWS EVERY INDIAN CITIZEN MUST KNOW**’ on **17/06/2021** at 3.00 pm. The system of rules which a particular county or community recognizes as regulating the actions of its members and which it May enforce by the imposition of penalties. Social worker need clear knowledge about Law’s every Indian citizen must know. Third day of webinar is about' **RIGHT TO INFORMATION ACT** ‘on **18/06/2021** at 3.00 pm. The right to information is an act of the parliament of India which sets out the rules and procedures regarding citizen’s right to information

**OBJECTIVES**

- To have a deep knowledge about the structure of government and it’s use.
- To have some ideas about federal system including quasi federal.
- To give a glance upon union territories.
- To understand the important laws that every Indian should know.
- To educate the common people about basic laws.
- To create awareness about laws and regulations.
- To understand the need and importance of laws that every social workers should learn.
- To promote democracy by maintaining transparency between the public administration and the general public.

- It enhances the participation of the general public in the work of the public administration.

### **PERFORMED ACTIVITY**

#### **Activity 1 - Day 1 - 16/06/2021**

The webinar began with a prayer song by Fr.Rajesh Philip Anand, I MSW. Ms A. Aquilin Bettila, I MSW delivered the welcome address. She welcomed the secretary Rev Fr Eckermens Michael and the principal Dr. Meenakshi Sundara Rajan of Nanjil Catholic College of Arts and Science. Then she welcomed Ms Aishwarya Kalpathi, CEO and Founder of YUVA Active Advocacy Forum, Mr Idaiyaraja District Coordinator of YUVA Active Advocacy Forum, the resource person Ms. Miriyam N, Training Coordinator of YUVA Active Advocacy Forum, Mrs Mary Pelsit Head of the Department of Social Work and the staff and all the participants. 48 participants have participated in this webinar. Ms Miriam N began her talk by interacting with the participants by asking how a citizen pays tax to the government. The participants replied that by buying products from shop and thus the citizens are indirectly paying the tax mentioned as GST. The speaker explained the different ruling system such as monarchy, communism, federalism, quazi federalism and totalitarianism. And she gave some view on union territories. The speaker gave a wide explanation on the three ways in which India is structured- Legislative, Executive and Judiciary. Legislative includes Loksabha and Rajyasabha. Its power is to make and change law. Executive includes President, Prime minister, council of ministers and the public servants. Their power is to put law in action. Judiciary includes Supreme court, High court and District court. Their power is to make judgments on law. Ms Miriam interacted with the participants in the webinar and cleared the doubts.

### Build assets

With saved money, build assets and not liabilities....

- Asset is something which earns you while you hold it and has value, hopefully, appreciating over a period of time.
- Asset is not asset just because it appears on your asset side. For Example – Car. While it appears on asset side of your balance sheet, it does not earn and its value continuously depreciates. It is indeed a liability.
- Assets are Equities, Bonds, Rented Real estates etc..

**Webinar Report on INTELLECTUAL PROPERTY RIGHTS**

**INTRODUCTION**

**Intellectual property rights** are the rights given to persons over the creations of their minds. They usually give the creator an exclusive right over the use of his/her creation for a certain period of time. As a Social Worker we need to know about the Intellectual property rights, so on Department of social work conducted the webinar. The webinar on “**Intellectual property rights**” was organised by the department of social work and research Centre of Nanjil catholic College of arts and science, kaliyakkavilai. On 28-08-2021 Saturday at 9am to 10am through Google meet. 41 participants participated in the webinar.

**What are intellectual property rights?**

Intellectual property (IP) is a term referring to a brand, invention, design or other kind of creation, which a person or business has legal rights over. Almost all businesses own some form of IP, which could be a Business asset.

**Common types of IP include:**

**Copyright** – this protects written or published works such as books, songs, films, web content and Artistic works;

**Patents** – this protects commercial inventions, for example, a new business product or process;

**Designs** – this protects designs, such as drawings or computer models;

**Trade marks** – this protects signs, symbols, logos, words or sounds that distinguish your products and Services from those of your competitors.

IP can be either registered or unregistered. With **unregistered** IP, you automatically have legal rights over your creation. Unregistered forms of IP include copyright, unregistered design rights, common law trademarks and database rights, confidential Information and trade secrets. With **registered** IP, you will have to apply to an authority, such as the Intellectual Property, If you do not do this, others are free to exploit your creations. Registered forms of IP include **patents**, **registered trademarks** and **registered design rights**. Copyright is also registerable.

## **OBJECTIVES**

- To understand about the **Intellectual property** .
- To understand about the process of **copy right**.
- To understand the functions of **Patent**.
- To know about the **products design, drawings and models**.
- To understand about different **Trademarks**.

## **PERFORMED ACTIVITIES**

The webinar began with a prayer song by Bedsubha D.S, Student of II MSW, Ms. Ajisha.S, II MSW delivered the welcome address. She welcomed the Secretary, Rev.Fr.Eckermens Michael and the Principal, Dr.Meenakshi sundara Rajan of Nanjil catholic College of arts and science, kaliyakkavilai. Then she welcomed the resource person, Dr. E. Enanalap Periyar Assistant Professor Dept. of Criminology and Criminal Justice, Manonmaniam Sundaranar University and Mary Pelsit, HOD and Dr.S Ponni, and Advocate Krishna Prasad and all other participants. Dr. E. Enanalap Periyar explained about; Copy right , Patents , Designs and Trademarks,

### **Copyright**

India is a signatory to the Berne Convention on copyright. However, it may be a good idea to register your Copyright as doing so may help to prove ownership if there are criminal proceedings against infringers. In most cases though, registration is not necessary to maintain a copyright infringement claim in India. Registration is made, in person or via a representative, with the Copyright Office. Since 2016, copyright Policy was moved to India's Ministry of Commerce and Industry. All IPRs are now administered by the Department for Industrial Property and Promotion (DIPP). Internet piracy of films, music, games and software is an issue in India, as is unauthorised copying of Physical books.

### **PATENTS**

India's Patents Act of 1970, 2003 Patent Rules and the 2016 Patent Amendment Rules set out the law Concerning patents. The regulatory authority for patents is the Patent Registrar under the office of the Controller General of Patents, Designs and Trade Marks, which is part of India's Ministry of Commerce and Industry. Patents are Valid for 20 years from the date of filing an application, subject to an annual renewal fee. India's patent law operates under the 'first to file' principle – that is, if two people apply for a patent on an Identical invention, the first one to file the application will be awarded the patent.

### **DESIGNS**

The laws governing designs are the Designs Act 2000 and the Designs Rules 2001. Designs are valid for a Maximum of ten years, renewable for a further five years.

### **TRADE MARKS**

India's trade mark laws consist of the 1999 Trade Marks Act and the Trade Marks Rules of 2002 and 2017. The regulatory authority for patents is the Controller General of Patents, Designs and Trade Marks under The Department of Industrial Policy and Promotion. The police now have more robust powers in enforcing Trade mark law, including the ability to search premises and seize goods suspected of being counterfeit Without a warrant. But these powers are tempered by the requirement for the police to seek the Trade Mark Registrar's opinion on the registration of the mark before taking action. This adds to the delay and may Result in counterfeit goods being removed or sold. Trade names also constitute a form of trade mark in India, with protection, irrespective of existing trade Names, for those wishing to trade under their own surname. Because of the widespread practice of 'cybersquatting' – the registration in bad faith of marks by third Parties registering domain names for certain well known marks in order to sell them to the original rights Owners – it is advisable

for rights owners to register their domain names in India as trade marks as soon As possible. Registration takes up to two years. A trade mark in India is valid for ten years.

Dr. E. Enanalap Periyar interacted with the participants in the webinar and cleared the doubts.

#### OBSERVATION

The topic was explained clearly by the resource person. The participants gathered more ideas about the structure of INTELLECTUAL PROPERTY RIGHTS. The doubts of the participants were clarified thoroughly. The resource person managed the time perfectly.

#### LEARNINGS

- Learned about the importance of Intellectual property rights
- Learned about the different functions of IP rights
- Learned about Copyright, Patents, Designs, and Trademarks.
- Learned about the characters of IP rights.

#### FEEDBACK

Nandu Das- The thoughts of the resource person that made to think about the importance of IPR.

❖ Ajisha.S.M- Webinar is very useful for me,I got more ideas about particular topic

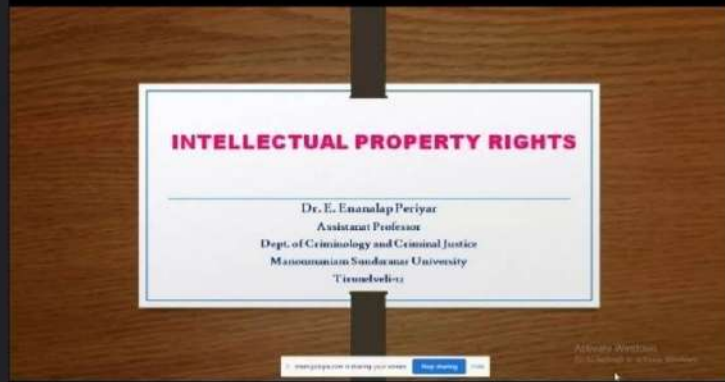

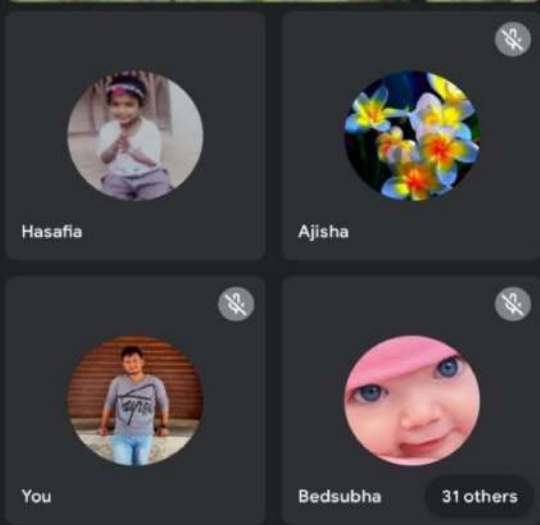

❖ Athira .S- The session was so good compared to others. It's so practical and can be applied and used in life. Thanks for the session.

NANJIL CATHOLIC COLLEGE OF ARTS AND SCIENCE  
KALIYAKKAVILAI  
DEPARTMENT OF PHYSICS AND RESEARCH CENTRE  
WEBINAR REPORT ON 'INTELLECTUAL PROPERTY RIGHTS'

## INTRODUCTION

Intellectual Property Rights (IPR) are the rights given to the persons over the creation of their minds. IPR is usually given to the creator as an exclusive right over the use of his/her creation for a certain period of time. As per the suggestions of UGC, students' community must have IPR awareness, so the department of physics organized a webinar on intellectual property rights on 10/09/2021 Friday at 10 am to 11 am through google meet. Seventy-eight participants participated in the webinar.

## CONTENTS OF WEBINAR

### WHAT ARE INTELLECTUAL PROPERTY RIGHTS?

Intellectual Property (IP) is a term referring to an intangible asset which may be a brand, invention, design or other kind of creation which a person or company has legal rights over it. Almost all business own some form of IP which could be an important business asset.

Common types of IP include:

Copyright: this protects written or published work such as books, songs, films, web content and artistic works:

Patents: This protects commercial inventions for example a new business product or process.

Designs: This protects designs such as drawings or computer models

Trademarks: This protects signs, symbols, logos, words or sounds that distinguish your products and services from those of your competitors

IP can be either registered or unregistered. With unregistered IP, persons automatically have legal rights over their creations, unregistered forms of IP include copyright unregistered design rights, common laws, trademarks and data base rights, confidential information and trade secrets. With registered IP, people will have to apply to an authority, such as the intellectual Property, if they do not do this, others are free to exploit their creations. Registered form of IP

includes Patents, registered trademarks and registered design rights. Copyrights also can be registered.

## OBJECTIVES

To understand about intellectual property

To understand about the process of copyright

To understand the functions of patents

To know about the product design, drawings and models

To understand about different trademarks

## PERFORMED ACTIVITIES

The webinar began with the prayer song by greeshma of II BSC Physics. Ms.Ajina delivered the welcome address. She welcomed the secretary Rev. Fr. Ekermans Michael and the principal, Dr. Meenakshi Sundararajan of nanjil catholic college of arts and science, kaliyakkavilai, then she welcomed the resource person Adv. Sandra Renjith Kurishumuttam, (Advocate, Distric court, Trivandrum, Legal advisor, Lee laboratories) and all other participants. Adv. Sandra explained about copyright, patents, designs and trademarks.

## COPYRIGHT

India is signatory to the Berne convention on copyright, it may be a good idea to register copyright as doing so may help to prove ownership. Registration is made in person with the copyright office, since 2016 copyright policy moved to India ministry of commerce and industry . All IPs are now administrated by department for industrial property and promotion (DIPP). Internet piracy of films, music, games and software is an issue in India as is an authorised copying of physical books.

## PATENTS

India's patents act of 1970, 2003 Patent rules and the 2016 patent amendment rules set out the law concerning patents. The regulatory authority for patents is the patent register under the office of the controller general of patents, designs and trademarks which is part of India's ministry of commerce and industry. Patents are valid for 20 years from the date of filing an application, subject to an annual renewal fee. India's patent law operates under the first to file

Learned about copyright, patents, designs and trademarks

Learned about characters of IP rights

## FEEDBACK

Mr. Rooban, the thoughts of the resource person that made to think about the importance of IPR

Ms. Malavika-The webinar is very useful for me , I got more ideas about the particular topics

Ms. Gopika - The session was so good. It's so practical and can be applied and used in life.

Thanks for the session

## CONCLUSION

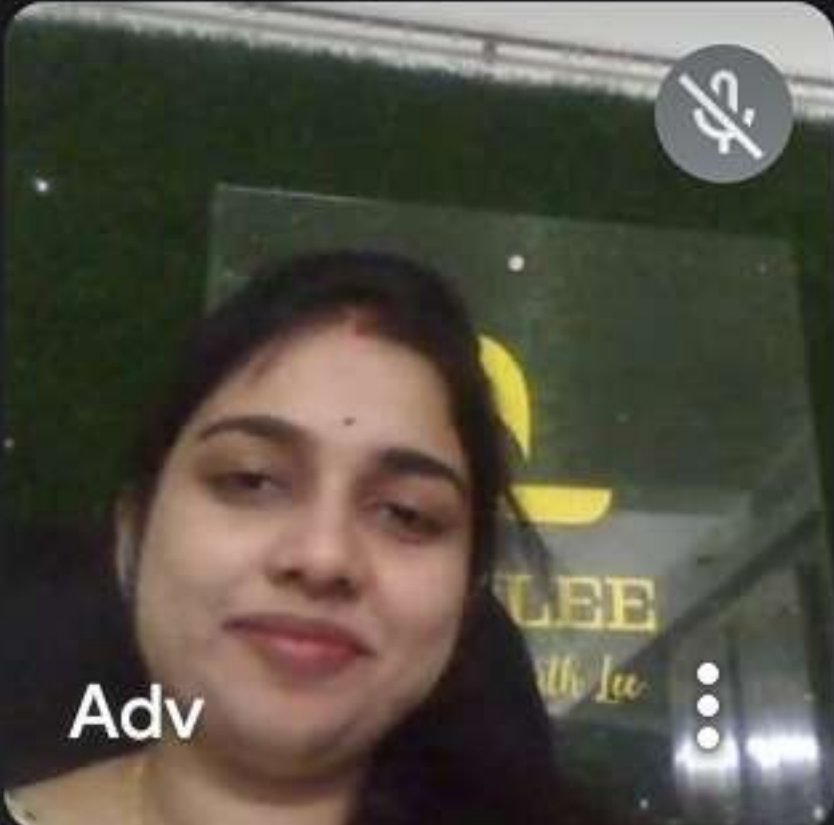

At the end of the session Ms. Jency paul student of II MSC physics , delivered the vote of thanks. Ms. Malavika of II MSC physics did the master of ceremony and the meeting came to an end at 11.30 am

## **Day 1**

### **Introduction of COMSOL**

COMSOL Multiphysics is a cross platform finite element analysis, solver and multiphysics simulation softwares. It allows conventional physics based user interfaces and coupled system of partial differential equations. COMSOL provides an integrated development environment and a unified workflow of electrical, mechanical, fluid, acoustics and chemical applications.

At the COMSOL, they develop mathematical modelling software that drives new breakthrough in Physics and Engineering. Their mission is to provide easy-to-use software solutions to engineering problems and to help their users get the most out of their products. Envision sustaining and reinforcing their position as a leading provider and developer of mathematical modelling software. They also aim to make their Technology the primary tool for engineers, researchers and lecturers within the field of education and the high tech product development.

## **Day 2**

### **Wave optics module to design multilayer planar structure**

Here to design a module we need a basic system configuration of minimum 4 GB RAM. For higher module design and structure we need high system configuration, if not then the time taken to show the result of the program/software to run smoothly is delayed or halted. To create a planar structure, we took Sillicac as core or SiO<sub>2</sub> and B<sub>2</sub>O<sub>3</sub> SiO<sub>2</sub> as cladding. Here the parameter setting is adjusted, the Lambda value is 1.55 micrometre and the refractive index  $n$  is taken as equal to 1.440. Then we run the system with the given data it ran for about 1 minut 29 second. Then we achieved the desired output, the data obtained can be saved in MS-Excel as well.

## **Day 3**

### **Wave optics module to design multilayer cylindrical structure; Optical Fibre**

Today we did a new new module in which Gold film is tution after substrate. The reflective index of glod is complex. So, we have to separate the real and imaginary part of refractive index of gold. The major change in refractive index is the dip type curve instead of other normal curve.

## **Day 4**

### **Wave optics module to design Photonic Crystal Fiber**

Photonic Crystal Fiber (PCF), is an enzyme. We know that in optical fiber core, cladding and jacket are made up of different material. But in the case of Photonic Crystal Fiber (PCF) there is only one material silica. We drill holes in the form of solid cylinder between them. By doing this, its effective refractive index will decrease by drilling hole. Thus the effective refractive index inside the core is greater than that of refractive index of cladding.

## Day 5

Wave optics module to design 2D grating in the fibre sensor

Here, we analysed the test result of the module using gold film as substrate. Then we discuss about how such curves are generated by using gold. Here this result is used to add one dimensional plot group in result part. Here, we demonstrated line graph and built in graph then again. By using the same result of gold as substrate, we plotted the two dimensional structure for it. Where D-shape and other outcome result of the module were discussed.

## Day 6

Semiconductor module for FET sensor

In this we discussed about the module for FET sensor. As a highly Complex result can't be explained and computed in a basic system. We did a small test run on it. And got the basic idea of computing in COMSOL. Then we discussed about the papers where FET sensor are made and run using COMSOL and we discussed the result obtained from it by using highly configured super computers.

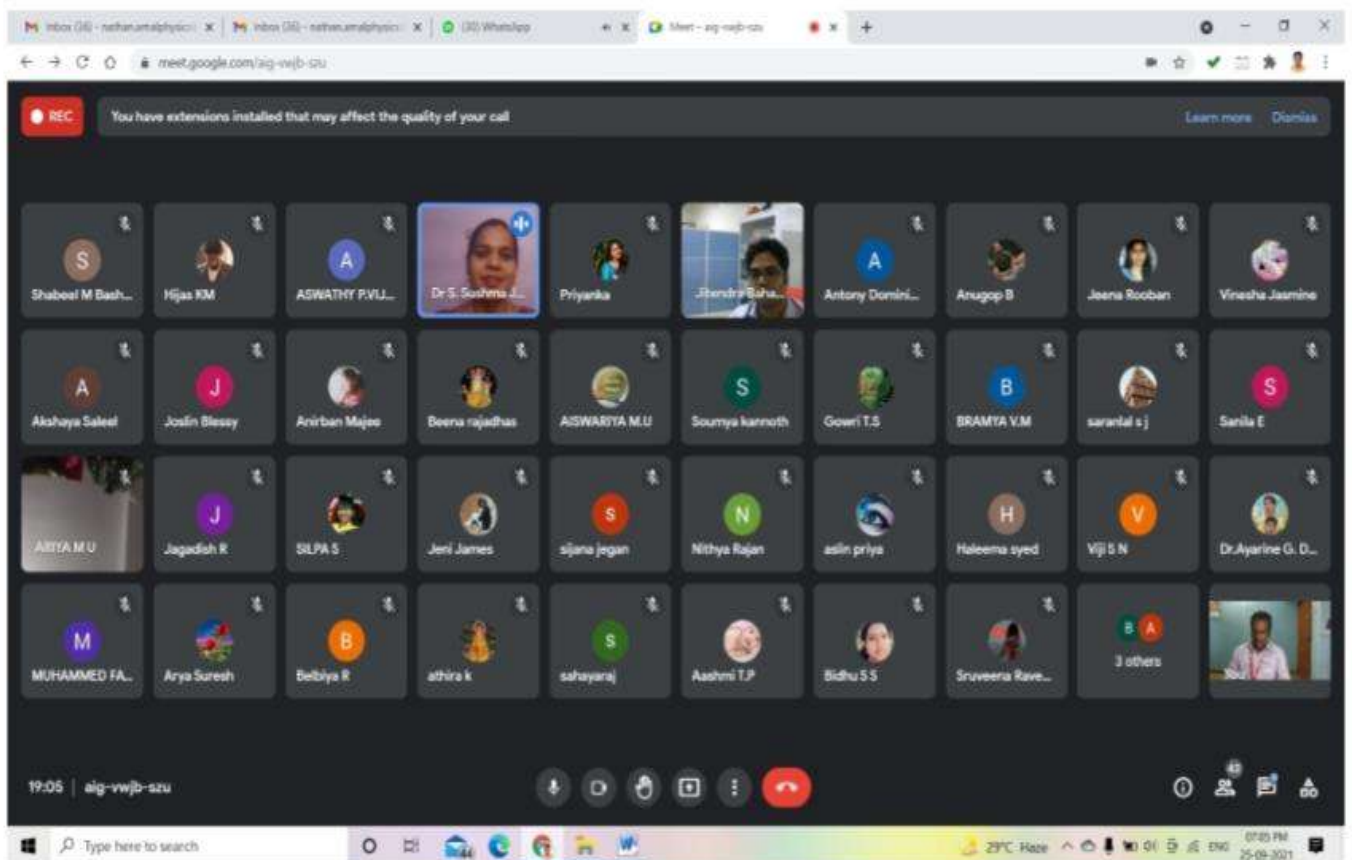

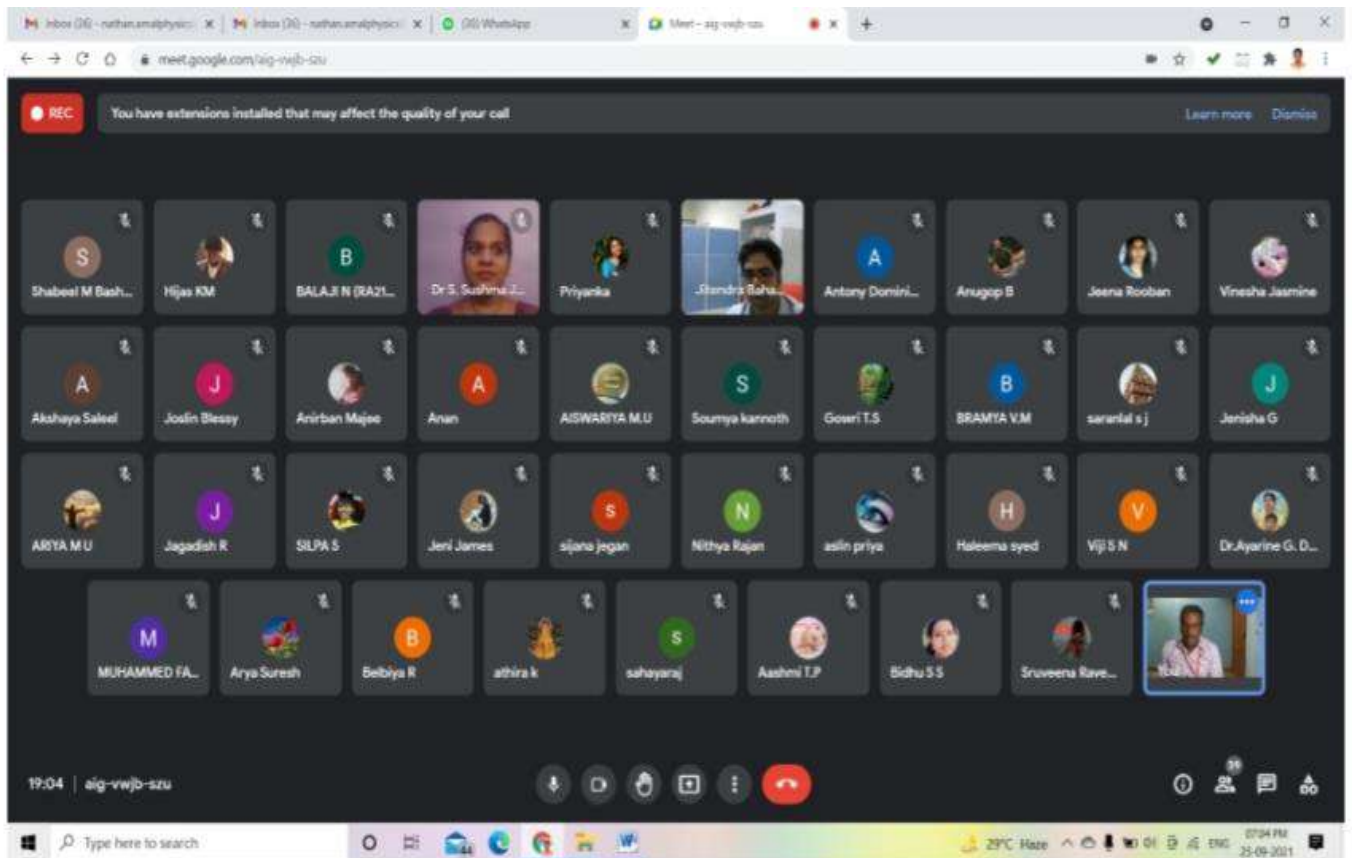

## Objectives of COMSOL program

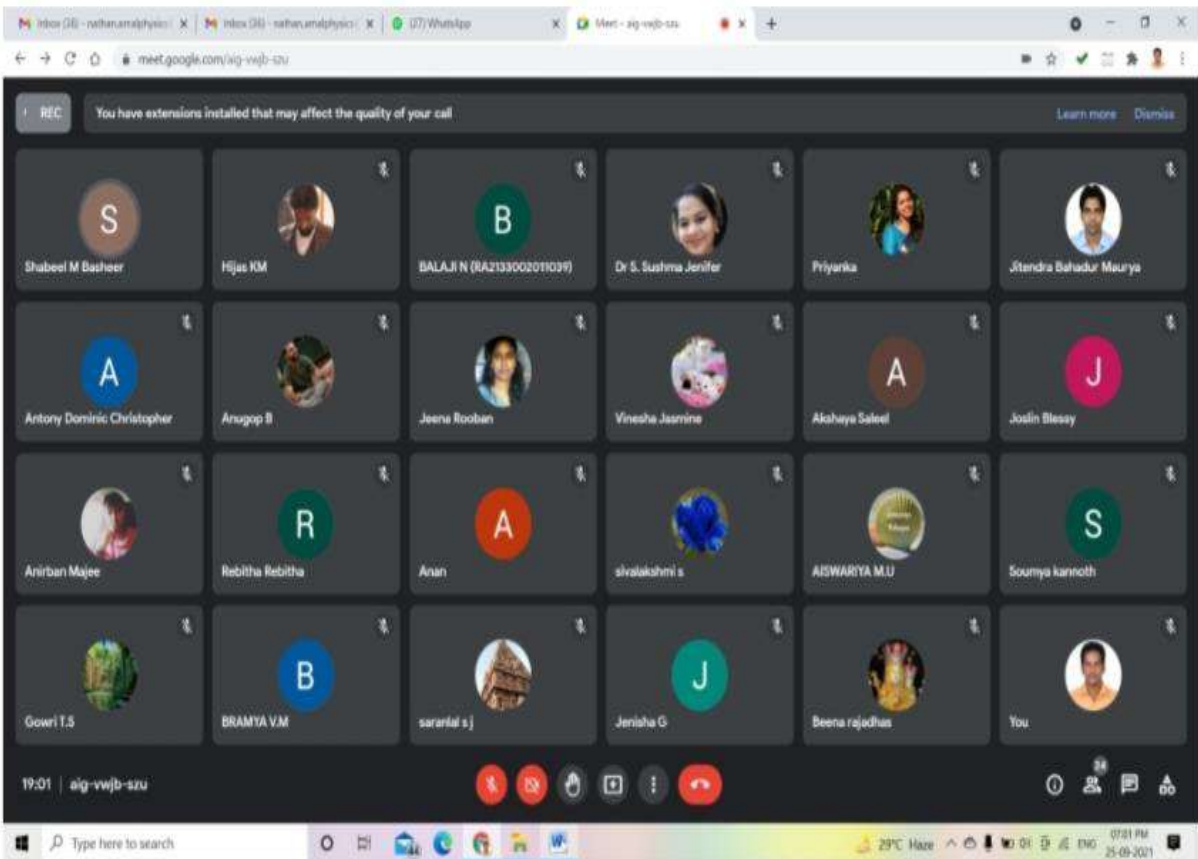

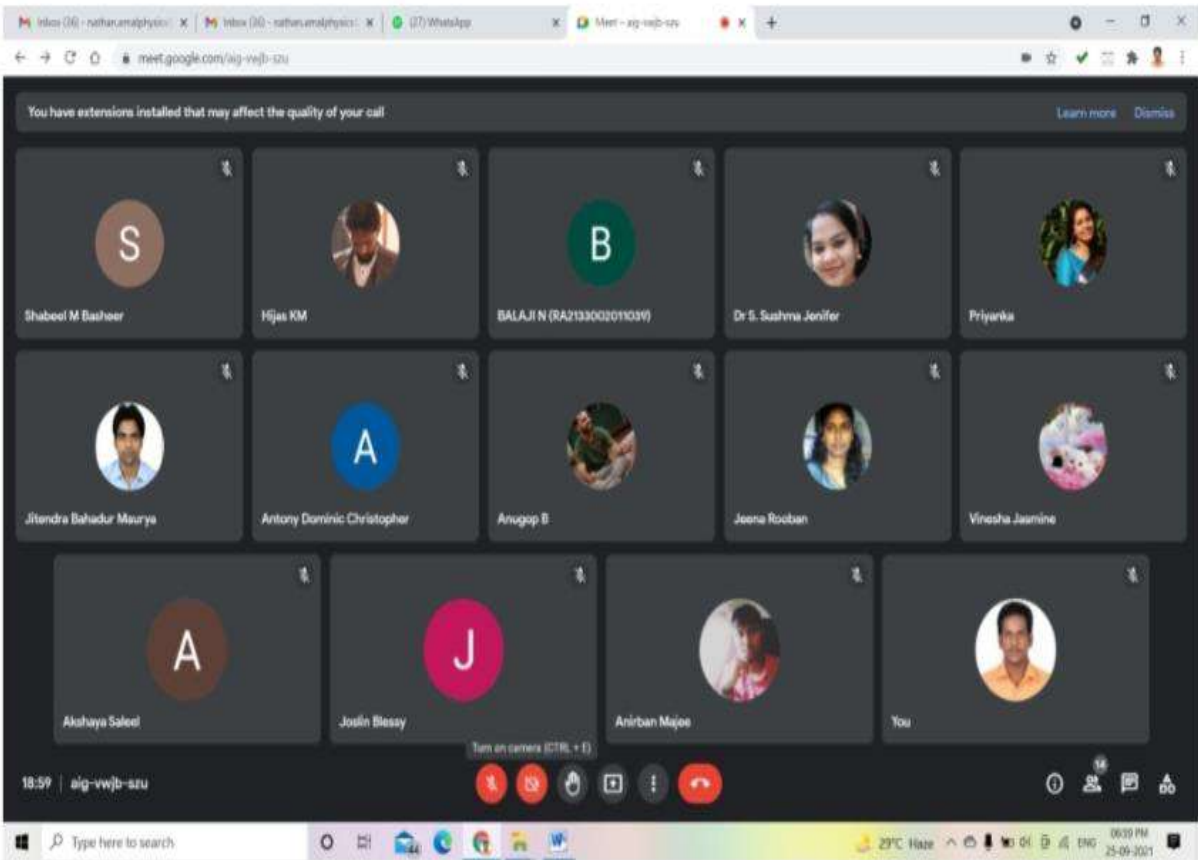

1. Through this cross-platform researchers, engineers and even student can able to built and understand the complex physics and other mathematical aspects.
2. We can able to create a module, where even it can't be done in any physical environment.
3. We need a good computer configuration to do the mathematical background checks and to smoothly run the program. For a higher Complex module or trial run we need a super computer configuration. Which is a drawback, while considering college students and other faculties.
4. We can develop a module of our own. And can be able to create a new one (module).

## Dear Sir / Madam, Warm Greetings!

It is a great pleasure and honour that the Department of Mathematics Nanjil Catholic College of Arts & Science invites the members of faculty, students and research scholars from your esteemed institution to participate in the National Conference on "RECENT CONCEPTS IN ALGEBRAIC GRAPH THEORY" (*NCAGT 2021*) to be held on 04.10.2021.

## ABOUT THE COLLEGE

Nanjil Catholic College of Arts and Science, Kaliyakkavilai, Tamil Nadu is one of the outstanding, well disciplined co-educational institutions situated in the southern tip of Kanyakumari District, Tamil Nadu and on the border of Kerala State. The College is under the management of Roman Catholic Diocese of Kuzhithurai. Apart from the regular academic programmes, the College aims at moulding and shaping the student's personality through an innovative, compassionate and lifelong learning approach. The College offers eleven U.G courses, eight P.G courses, seven Pre-Doctoral programmes (M.Phil) and Research Centers.

## ABOUT THE DEPARTMENT

The Department of Mathematics was established in the year 2012 with U.G. Degree course.

The department widened its sphere by introducing M.Sc. degree course in the year 2014 and subsequently added M.Phil course in the year 2017.

## ABOUT THE CONFERENCE

Mathematics is one of the emerging fields with promising applications in various disciplines. In this conference, an in-depth discussion will be taken up on the latest innovations of Mathematics. The objective behind organising the conference is to deliver more insight on the awareness of the "Recent Concepts in Algebraic Graph Theory" (*NCAGT 2021*) provides a platform for researchers, students and the faculties to share their knowledge, experience and research findings in Algebraic Graph Theory. It also provides opportunities of the researchers to exchange innovative ideas and research findings in pure and Applied Mathematics. It yields opportunity to young researchers for a fruitful discussion, interaction and to motivate the participants to carry out research in these fields.

## CALL FOR PAPERS

*NCAGT 2021* invites research paper describing original and unpublished in the areas of algebraic graph theory. Papers must be typeset using font size Times New Roman 11 and 1.5 line space and may not exceed 10 pages. All the research papers are should be send to the E-mail, [maths.nanjil@gmail.com](mailto:maths.nanjil@gmail.com). All the accepted papers will be published in the form of proceedings with ISBN.

## IMPORTANT DATES

Full Paper Submission : 20-09-2021

Acceptance Notification : 25-09-2021

## REGISTRATION FEE DETAILS

Students : Rs.250/-

Paper Presenters : Rs.600/-

**Report of Conference- NCAGT-2021**

Department of Mathematics organized its third national level conference on 04/10/2021 at 10:00 am at college seminar hall. Prof.P.G.Romeo, Senior Professor, Department of Mathematics, Cochin University of Science and Technology, Kochi and Dr.T.Asir, Assistant Professor, Department of Mathematic-DDE, Madurai Kamaraj University, Madurai were the resource persons of that day.

During inaugural session, after our department choir's prayer song, Dr .A. Ajitha, Head of the department and convener of the conference welcomed the gathering. Dr. A. Meenakshisundararajan, Principal of our college presided over the function and his presidential address, he noticed some applications in algebra, topology and graph theory. After this, Mrs. S. Jerlin Mary proposed vote of thanks.

After the tea break, Prof.P.G.Romeo started his technical session with the topic "Group Algebras and Graphs". Sir explained preliminaries of the relation connecting groups and graphs followed by some real life applications explained nicely. Students feedback about this session was awesome.

After this, proceedings of NCAGT-2021 has been published by Dr.T.Asir and get it Prof.P.G.Romeo.

Next our resource person Dr.T.Asir continues his session with the topic

"Cohen-Macaulay Graphs". In his session, he motivated our students by giving basic definitions and examples of ideals and modules. Also, he explained the necessary and sufficient conditions for the Cohen-Macaulay Graphs. Research scholars were impressed throughout this session.

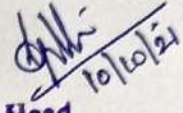

After lunch break paper presentation session is started. Totally 44 students, research scholars and staff presented their fresh research articles in various fields of mathematics. Especially some students from Madurai Kamaraj University presented their papers is highly impressive.

After this, student's feedback was done. Students gave positive comments about these sessions. During valedictory session, our resource person Dr.T.Asir distributes proceedings and certificates to the presenters and participants. Totally 281 participants from various colleges participated in this conference. Finally, Mrs.S.Selestin Lina proposed vote of thanks followed by the National Anthem and the conference windup at 3:00 pm.

During the valedictory session, Dr. T. Asir gave the valedictory address and also he distributed the certificates for all the participants. Mrs. R. Abila, Assistant Professor, Department of Mathematics, Naccas delivered the vote of thanks. The function ended at 2:00 pm.■

Question & Answer

## Introduction

The webinar on "**Introduction to Research through Mythology**" begins at 10:15am with a sublime prayer song by the social work trainee's. Words of welcome was done by Miss.Herlin Joyal.G.G (IIMSW). First of all, the trainee great the secretary Rev.Fr.Eckermens Michael and honorable Principal Dr.Meenakshi Sundara Rajan.. Next the trainee grabs the resource person **Dr.Ajith Fredjeev Dinakarlal**, specialist in research and knowledge development sector. Then she cheerfully welcomed the staffs and social work trainees to the webinar. The resource person initiates his oration by sharing the explanation between "**Moodevi Vs Sreedevi**". When Sreedevi comes forward, it looks pretty and when Moodevi goes awayit's seems beautiful .Like that while truth approach towards usit's attractive and once the ignorance and curse go away from usit's good. Illustrate the differences in research (or) research types.

## Qualitative and subjective

- \* Qualitative research can be used to understand how an individual subjectively
- \* perceives and gives meaning to their social reality.
- \* Personal opinions, assumptions, interpretations and beliefs.
- \* Newspaper editorials, blogs, biographies, comments on the Internet.

## Objective, Quantitative

\* Quantitative research is the process of collecting and analyzing numerical data. It can be used to find patterns and averages, make predictions, test causal relationships, and generalize results to wider populations.

- \* Observation of measurable facts.
- \* Encyclopedias, textbooks, news reporting.

Then he described, how to select a research topic,

✓About "**What**"

(what are you going to study through the research) Psychological problem, Social problem, Labour problem, Anxiety, Depression, Stress, Attitude, Aptitude, Competency.

✓Among "**Who**"

The research topic is applicable among; women, Children, Adolescence, Youth, Unemployed, Self-employed or among Union leaders.

✓"**Where**"

The research is going to be done among whom should be mentioned. **Example:** Global, State, District or Specific locality

✓**"When"**

In which year the research is going to be done, particularly year of the research should be mentioned in the research topic.

## **TRADITIONAL RESEARCH MODELS vs SOCIAL WORK RESEARCH MODELS**

### **TRADITIONAL RESEARCH MODELS**

Traditional Research Models are **Exploratory, Descriptive, Diagnostic and Experimental.** Traditional research seeks generalizations in relation to a small number of variables and is for the sole purpose of providing problem-solving solutions. Therefore, the action research approach includes stages or levels and enables the improvement of an organizational system and its processes. Traditional Research Models are used for sociology, history and economic research.

### **SOCIAL WORK RESEARCH MODELS**

Social work research Models are

✓*Retrospective baseline AB model*

✓*With drawal reversal ABAB model*

✓*Multi sectoral model ABCD model*

Social work research is to search for answers to questions raised regarding interventions or practice effectiveness.

### **Conclusion**

social work research attempts to provide knowledge about what interventions or treatments really help or hinder the attainment of social work goals. The practice is typically categorized into **the interrelated scales: micro, mezzo and macro.** For those considering a career in social work, an understanding of the vast opportunities available at each level is imperative. Resources persons was interacted with the participants in between the webinar and cleared the doubts. All students were benifited

**Report**

The Department of Commerce and Research Centre conducted a seminar on 9<sup>th</sup> October 2021 at 10 am in the college Seminar Hall. The title of the seminar is “INTELLECTUAL PROPERTY RIGHTS”. The Post Graduate students of all the departments and final UG and PG Commerce students participated in the seminar. The program started with the prayer song of the UG Commerce students. Welcome address was given by the student Manisha V U of II M.Com.

The Presidential Address was given by Rev. Fr. M. Eckermens Michael, Secretary of NACCAS, and the Principal Dr.S.Meenakshi Sundara Rajan inaugurated the meeting.

Dr. C.Arul Mary Thangam Head of the Department of Commerce introduced the Chief Guest Dr. S. Krishnamoorthy, Professor & Vice Principal, Nehru Academy of Law, Lakkidi, Ottapalam, Kerala. The key note address was given by the Chief Guest. He discussed the following concepts- Patent Rights, Copy Rights, Trade Marks, Trade Secrets and Industrial Property. He explained about the rights of authors of literary and artistic works such as books and other writings, musical compositions, paintings, sculpture, computer programs and films which are protected by copyright. He also discussed about various rights protected through copyright and related (sometimes referred to as “neighbouring”) rights are the rights of

performers (e.g. actors, singers and musicians), producers of phonograms (sound recordings) and broadcasting organizations. To make sure that the future generation would gain more benefit by IPR he gave ideas to the students about the Management of IPR and how to apply for getting Licence for newly introduced products. He motivated the students to use their Intellectual in the interested areas and get exclusive right of their invention, also explained the need to protect the knowledge from unlawful use.

Finally, he concluded that development of the economy as well as individual development is possible through IPR. He promised to help the students in future. Doubts raised by the students relating to IPR were cleared by the Guest. Adhersha A.S (I M.Com) proposed the vote of thanks. The seminar came to an end with National Anthem.

**Dear Sir/Madam,**

Greetings from NACCAS!

We are extremely happy to invite the faculty, research scholars and students of your esteemed institution to the National Conference on **“Innovative Practices in Business and their Implications on Economic Transformation”** organized by the Department of Commerce and Research Center of our College on **16<sup>th</sup> November 2021**.

#### **About the College**

**Nanjil Catholic College of Arts and Science**, Kaliyakkavilai, Tamil Nadu is one of the outstanding co-educational institutions situated in the southern tip of Kanyakumari District, Tamil Nadu and on the border of Kerala State. The College is under the management of Roman Catholic Diocese of Kuzhithurai. Apart from the regular academic programmes, the College aims at moulding and shaping the student's personality through an innovative, compassionate and lifelong learning approach. The College offers eleven U.G courses, eight P.G courses, seven Pre-Doctoral programmes (M.Phil.) and five Doctoral (Ph.D.) programmes.

#### **About the Department**

The Department of Commerce was established in the year 2012 with U.G. Degree course. The department widened its sphere by introducing M.Com. degree course in the year 2014 and subsequently added M.Phil course in the year 2016. Since it was felt that there should be specific focus in research leading to Ph.D. degree, the research center was established in February, 2018.

## The College

Nanjil Catholic College of Arts and Science, Kaliyakkavilai is the pride of the Diocese of Kuzhithurai, Kanyakumari District. The Patron of the college is Most Rev. Dr. P Antony Pappusamy, Apostolic administrator Diocese of Kuzhithurai. From a humble beginning, it has grown in leaps and bounds to stand tall today under the leadership of Rev. Fr. Dr. M. Eckermens Michael with a vision of providing exceptional educational and research opportunities.

The college currently offers 11 undergraduate, 8 postgraduate, 7 pre-doctoral programmes and 5 Doctoral programmes. Creation of employment oriented skills is an additional goal. Other facilities and amenities available in the campus include a study centre of the Indira Gandhi National Open University offering various add-on courses.

## The Department

The Department of Physics excelled as the first doctoral department of the College. The department has a team of well experienced, dedicated and competent faculty including five doctorates. Among them two are recognised as research guides by M.S. University. The department is also having well equipped laboratories with internet facility and smart class rooms to enrich the students with latest technologies. The facilities available in our research lab are Spin coater, Dip coater, UV-Visible Spectrophotometer, LCR Meter, Microwave Ovens, Muffle furnaces, Hot plates, particle size analyser, Distillation plant, etc. We also encourage researchers from other institutions to utilize our research facilities.

## Objective of the Conference

The conference is aimed at bringing together the scientific and technical community to share their knowledge in the recent trends on the processing, characterization and application of advanced materials. Eminent persons in various fields share their experience and knowledge with the participants, which in turn are expected to provide the participants a complete knowledge in the areas proposed in this conference and stimulate them to pursue quality research.

## Call for papers

You are cordially invited to participate in the Fourth National Conference on Advanced Materials (NCAM-2022) on March 26, 2022. Postgraduate students, M.Phil scholars, Ph.D. scholars and faculty members of Physics and Chemistry can participate. Papers are invited for presentation (oral or poster) related to different areas in Materials Science Research including the following:

- Crystal growth
- Thin films
- Nanomaterials
- Spectroscopy
- Nonlinear optical materials
- Organic materials
- Inorganic materials
- Computational Physics
- Space Physics

## Invited Speakers

### Dr T P D Rajan

Senior Principal Scientist, CSIR, Govt of India. Industrial Estate PO, Thiruvananthapuram, Kerala

### Dr Sabarinathan Venkatachalam

Department of Physics, Manonmaniam Sundaranar University, Tirunelveli, Tamilnadu

## Guidelines – Abstract/Paper submission

One page abstract (not exceeding 300 words) should be submitted before the deadline. The authors are requested to adhere to the following guidelines while preparing full paper.

- The authors should restrict their paper within SIX A4 size pages including text, figures, tables and references.
- The text should be typed in Times New Roman with font size 12 and Justified.

- Paper title should be Centered and Bold.
- The name of the corresponding author should be indicated by asterisk.
- The softcopy (MS WORD) of the full paper should be send to nanjil.physics@gmail.com.

## Registration

P.G. Students : Rs.500/-

M.Phil. Students : Rs. 600/-

Ph.D. Scholars & Faculty Members: Rs. 600/-

Registration fee has to be paid in the form of DD drawn in favour of “Nanjil Catholic College of Arts and Science” payable at Kaliyakkavilai. M.Sc, and M.Phil. students should get certified from their Institution.

## Important Dates

Last date for submission of Abstract: 16.03.2022

Intimation of acceptance : 18.03.2022

Last date for registration : 20.03.2022

All the accepted papers will be published in conference proceedings with ISBN number.

Organised  
*Fourth National Conference on “ADVANCED  
MATERIALS (NACAM-2022)”*  
on 26<sup>th</sup> March, 2022**

Inorder to encourage and motivate the students to create interest in the research area, every year department of physics organised national level seminar. During the academic year 2021-2012, physics department of Nanjil Catholic College of Arts and Science, Kaliyakkavilai organised the fourth national conference on “**ADVANCED MATERIALS (NACAM-2022)**” on 26<sup>th</sup> March, 2022 at seminar Hall. Registration for the conference was commenced from 26<sup>th</sup> February 2022. Also papers are invited for the conference proceedings.

The registration for national level conference was started at 8.30 am on 26<sup>th</sup> March, 2022. The conference begun with the Tamil Thai Vazhthu at 10.00 am. All the participants were welcomed by Dr. M Amalanathan, convener of the conference and HoD, Department of Physics, NACCAS.

Rev.Fr.Dr. M Eckermens Michael, Secretary of our college presided the inaugural session and gave his presidential address. In his presidential address he explained the importance of research in science, especially in physics. The inaugural address was delivered by our principal Dr. A Meenakshi Sundara Rajan.

The Conference proceeding was released by Rev.Fr.Dr. M Eckermens Michael, Secretary of our college. The rank holders of Physics department were honoured by Rev.Fr.Dr.M.Eckermens Michael, Secretary, NACCAS. The Eminent Professors, Dr. T.P.D. Rajan, Senior Principal Scientist, CSIR, Govt. of India, Thiruvananthapuram and Dr. Sabarinathan Venkatachalam, Department of Physics, Manonmaniam Sundaranar University, Tirunelveli were handled the technical sessions. As an expression of gratitude, thanks was given to delicacies by Dr. Bidhu. S. S, organizing Secretary of conference

and Asst. Prof., Dept. of Physics, Nanjil Catholic College of Arts and Science, Kaliyakkavilai.

The technical session begun at 11.00 am. The first technical session was handled by Dr. T.P.D. Rajan, Senior Principal Scientist, CSIR, and Govt. of India, Thiruvananthapuram. The budding research aspirants got the detailed idea about the topic smart materials and coatings from the first technical session. Dr.T.P.D Rajan explained about the categories of smart materials are Piezoelectric, Electrostrictive, Magnetostrictive, Shape Memory Alloys and Optical Fibres. Smart coatings are innovative coatings that can react spontaneously, due to inbuilt stimuli-responsive mechanisms. Smart materials find wide applications in various sectors starting from vibration reduction in sporting goods, smart skin, smart aircraft, autonomous smart systems and stealth applications. The potential benefits of smart materials,structures and systems are amazing in their scope.This technology

gives promise of optimum responses to highly complex problem areas by, for example, providing early warning of the problems or adapting the response to cope with unforeseen conditions, thus enhancing the survivability of the system and improving its life cycle. The present talk highlights various studies on producing smart composites, coatings and their applications.

The second technical session was handled by Dr. Sabarinathan Venkatachalam, Department of Physics, Manonmaniam Sundaranar University, Tirunelveli. He explained clean renewable energy and the importance of reducing pollution with the use of electric vehicles and energy resource for Electric Vehicles. Also discussed about the EVs charging issues while using renewable energy and smart grid technologies, Understanding environmental risks and addressing the sustainability challenges in terms of clean renewable energy & reduce carbon footprint, Selection of Materials for

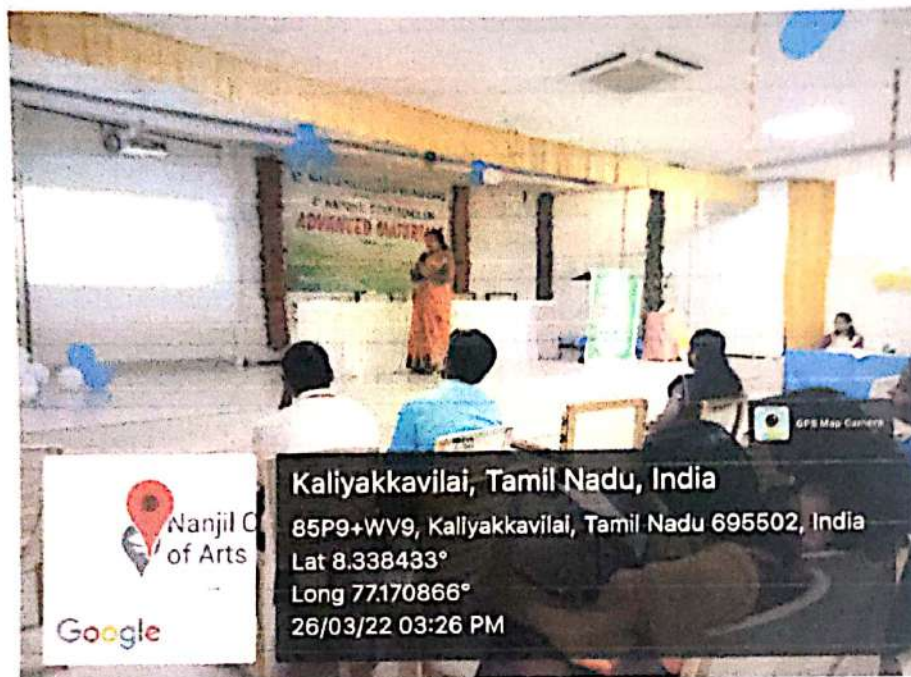

Energy Storage devices to solve the major problem in the batteries, hybrid super-capacitors for fast charging process and solid state batteries for safety issues.

After the lunch break, the oral and poster presentations were done separately. Assistant Professors, research scholars and PG students from various Colleges and Universities were participated for the oral/poster presentation. Total number of contributed papers were 65, in which 29 participants were actively participated in poster presentation and 32 participants actively participated and presented their research outcomes. Mr. T. Regin Das, Research Scholar from S.T. Hindu College, Nagercoil got the

best poster presentation award. Mrs. J. Beena, Research Scholar from Nesamony Memorial Christian College, Marthandam got the best oral presentation award.

The conference came to an end with valedictory function. The feedback from participants encouraged our team to organize national and international level conferences. Distribution of Certificates was done by Dr. M. Amalanathan, HoD, Dept. of Physics, NACCAS in the absence of Rev. Fr. A. Domi Lilil Raja, Bursar, NACCAS. Fourth national conference on “ADVANCED MATERIALS (NACAM-2022) ended with National Anthem.

**இளவேனில் கவிதை பயிலரங்கு**

களியக்காவிளை, நாஞ்சில் கத்தோலிக்க கலை மற்றும் அறிவியல் கல்லூரியின் தமிழ்த்துறை சார்பாக இளவேனில் 'கவிதை பயிலரங்கம்' 21.04.2022 வியாழக்கிழமையன்று நடத்தப்பட்டது.

தமிழ்த்தாய் வாழ்த்துடன் பயிலரங்கம் சுமார் 10.15 மணியளவில் ஆரம்பமானது. பயிலரங்கிற்கு வருகை தந்திருந்த அனைவரையும் தமிழ்த்துறை இரண்டாமாண்டு மாணவி அ. சுஜா வின்சிலா அவர்கள் வரவேற்றார்கள்.

பயிலரங்கத்தின் முதல் அம்சை தமிழ்த்துறை பேராசிரியர் முனைவர் அ. சுஜாதா ஜாய்ஸ் அவர்கள் நடத்தினார்கள்.

கவிதை எழுதுவதற்கு இலக்கிச் செங்கோலோ, இலக்கண பல்லக்கோ தேவையில்லை. இயற்கையை அழகான வாழ்வை, தன்னை ரசிக்கின்ற மனமிருந்தால் போதும் என்றும், அழகை, மகிழ்ச்சியை, வருத்தத்தை, ஏமாற்றத்தை, தோல்வியை, வலிகளை வார்த்தைகளால் வெளிப்படுத்தும் போது வார்த்தைக் கூடுக்கத்தை கடைப்பிடித்தாலே அழகிய கவிதை உருப்பெற்றுவிடும் என்றும், நம் சிந்தனையில் தோன்றும் கருத்துக்களை சற்று கற்பனை கலந்து வார்த்தை ஜாலத்தோடு பதிவு செய்வது சிறந்த கவிதையாக மாறும் என்றும் எடுத்துரைத்தார்கள்.

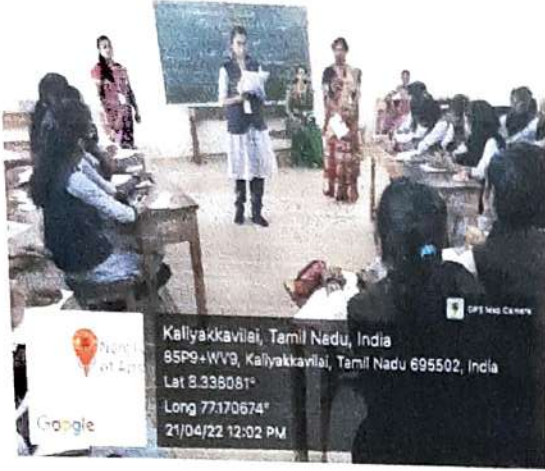

பயிலரங்கத்தின் இரண்டாம் அம்வை தமிழ்த்துறை பேராசிரியர் முனைவர்  
ஆர்.அட்லின் ஜெபா அவர்கள் நடத்தினார்கள்.

எதுகை, மோனையோடு இயைபுச் சொற்களை பயன்படுத்தி வார்த்தைகளை  
கருக்கி நான்கு, நான்கு சீர்கள் அடிப்படையில் பத்து முதல் பதினைந்து  
வார்த்தைகளை கவையுடன் அடுக்கும்போது சிறந்த கவிதை உருவாக்கம் பெறுகிறது  
என்றும், சந்த, ஓசை நயங்களுடன் வார்த்தைகளை பயன்படுத்தும்போது இனிய  
கவிதைகள் பிறக்கும் என்றும், பல கவிதைகளை எடுத்துக்கூறி விளக்கமளித்ததோடு,  
கவியரசர் கண்ணதாசன் கூட கவிதை என்றால் என்னவென்றே தெரியாதபோதுதான்  
தன்னை கவிஞன் என்று சொல்லிக் கொண்டு தைரியமாக தனது எண்ணங்களை,  
கருத்தை வெளிப்படுத்தினார். அதுவே பின்னாளில் சிறந்த கவிதையாக ஒலித்தது  
என்றும், எனவே கவிதை எழுத கற்பனை வளத்தைவிட எதார்த்தத்தை எதார்த்தமாக  
வெளிப்படுத்தும் திறனே அவசியம் என்றும் எடுத்துரைத்தார்கள்.

தொடர்ந்து மாணவர்கள் தங்கள் மனங்கவர்ந்தவை பற்றி கவிபுனைய  
உற்சாகப்படுத்தப்பட்டனர். மாணவர்களும் எளிய, இனிய கவிதைகள் படைத்தது  
பயிலரங்கத்தை பயனுள்ளதாக்கியது.

இறுதியாக முதுகலைத் தமிழ் இரண்டாமாண்டு மாணவி செ.நி.ரிஜோ அவர்கள் நன்றி கூற 12.15 மணியளவில் பயிலரங்கம் இனிதே நிறைவு பெற்றது. இப்பயிலரங்கில் 7 தமிழ்த்துறை பேராசிரியர்களும் 43 மாணவ மாணவியரும் கலந்து கொண்டனர்.

பயிலரங்கிற்கான அனைத்து ஏற்பாடுகளையும் தமிழ்த்துறைசார் பேராசிரிய பெருமக்கள் செய்திருந்தனர்.

## Department of Mathematics

### Report of Three Days Workshop on CSIR UGC NET/SET Challenges

Department of Mathematics organized three days workshop on “CSIR UGC NET/SET Challenges” from 27/04/2022 to 29/04/2022 at the college seminar hall. Three familiar resource persons Mr. R.GnanaPrakasam, Assistant Professor, Department of Mathematics, Taminadu Govt. Polytechnic College, Madurai(18 times NET qualified), Mr. Dany Joy(3 time NET and 3 times GATE qualified), Research Scholar, VIT, Vellore and Dr. T.Asir, Assistant Professor, Department of Mathematics-DDE, Madurai Kamaraj University, Madurai were supported the success of the programme.

The inauguration session started with the prayer song on 27<sup>th</sup> April at 10:30 am by our department choir. Dr.A.Ajitha, Head and Assistant Professor, Department of Mathematics, Naccas welcomed the gathering. Rev Fr. Eckermens Micheal, Secretary, presided over the function. He motivated our students by his inspirational words. Dr. Meenakshisundararajan, Principal addressed and Mrs. S. Jerlin Mary, Assistant Professor, Department of Mathematics, Naccas delivered the vote of thanks.

After the tea break, first technical session by Mr.R.Gnanaprakasam was started. In this session he explained the theory part of the linear algebra and consequently discussed the problems and solutions were taken from old NET question papers. It was very helpful for the PG students to score good marks in the Linear Algebra. After the lunch break, sir explained the properties of linearly independent and dependent sets and corresponding questions and answers.

On the next day that is, on 28<sup>th</sup> April 2022 the young resource person Mr. Dany Joy started his session through beautiful concepts in ordinary differential equations using power point. After lunch break old questions from previous NET and also the answers were discussed. After lunch break, the session was started at 2:00 pm. In this session the fundamentals of partial differential equations were discussed and also the questions and answers were discussed. The first and second day the sessions stopped at 4:00 pm.

On the third day, that is on 29<sup>th</sup> April 2022, Dr. T.Asir was the resource person. After tea break, he started his session with Ring theory Basic concepts and also discussed old question and answers. After a small break, he motivated the participants by giving proper ideas to get good marks and all. It was an awesome session.

Our department organizes the workshop on vermiculture on 5-5-2022. The staffs and students are actively participated in the programme. It was initiated by practices the vermicompost and the steps how to compost the process was explained by the guest. Vermicompost (vermi-compost) is the product of the decomposition process using earthworm, to create a mixture of decomposing vegetable or food waste, bedding materials, and vermicast. Vermicomposting can also be applied for treatment of sewage and manure, fertilizer of vegetables and flowering plants. The students get an knowledge and awareness of the economical benefit of vermiculture . It might become an awareness for them to protect the natural plantation free from hazadous or artificial fertilizer's. It make their potentialies to develop a tremendous growth in future.
