Tree plantation by students

Gifting plants to students for their birthdays

Tree plantation by students in campus

Tree plantation by staff in campus

Tree plantation by Chief Guest

Gifting trees for Fresher's Day

RECYCLING:

Waste water from Distillation Plant is used for Plants.

Rechargeable batteries are used in torch lights and in Multimeters

REPARING:

Blown out fuse are replaced in electronics instruments. Main chord wires are open circuited often. They are replaced. Transformers (step down) in power supplies are often burnt out due to short circuit. So short circuit protection circuits are added with the power supplies. Enough transformers, fuses with different ratings & Main chords are kept sufficiently in laboratory for replacement. Technicians are invited in every year for major servicing.

Renewable source of energy

The Department uses solar cell . It helps the student to understand about the benefit of the renewable source of energy

Clean campus Initiatives
