ANALYSIS OF STUDENT'S FEEDBACK ON SYLLABUS

The student of academic year 2017-2018 strongly agrees that the syllabus in term of load is in appropriate size. They also assured that teachers completed the syllabus on time and the course content encourages them for extra learning and self learning. Few students agreed that the objectives stated in the course are clear and elective paper offer them proper technological advancement. Many students disagreed to the point that the course has any difficulty for them to understand. Students were also satisfied that the syllabus has provided them with sufficient practical/project hours.

Feed Back Report On

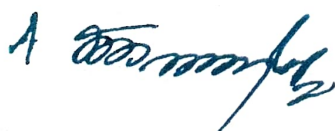

Designing and Review of Syllabus

The students of UG Mathematics class were given the syllabus feedback for all major subjects. According to them, the depth of the course content was 90% good. They claimed that the extent of coverage of course was up to 78% very good and 92% of students suggested that the applicability to real life situation was satisfactory because the prescribed portions cannot be connected with our real life situation. 84% of students suggested that the extents of the knowledge in certain concept were also found to be good. 95% of students claimed that the relevance of additional source material seems to be good and extent to the effort required was 85%. 67% of the students suggested that the clarity and reverence of textual reading material was also good. A last they concluded that the subjects given to those to create a positive accept and it helped the students to understand the topic well. And also, staff enquired about the difficulty of the subject and the remedial measures was taken.

The students of PG Maths were given the syllabus feedback form for All major and elective subjects. According to them, the depth of the course content was 89% very good. They claimed that the extent of coverage of course was up to 70% good and 90% of students suggested that the applicability to real life situation was satisfactory because the prescribed portions cannot be connected with our real life situation. 80% of students suggested that the extents of the knowledge in certain concept were also found to be very good. 65% of students claimed that the relevance of additional source material seems to be good and extent to the effort required was 67%. 89% of the students suggested that the clarity and reverence of textual reading material was also good. A last they concluded that the subjects given to those to create a positive accept and it helped the students to understand the topic well. And also, staff enquired about the difficulty of the subject and the remedial measures was taken.

Also the teaching Staffs from the department of mathematics give the feed back about revised 2017-2018 syllabus. The learning objectives are well cleared for each course. The syllabus is well updated and suitable to course and the programme. The prescribed Text books and Reference books are available. The syllabus meets the requirements of industries The syllabus has sufficient number of project components. We are able to complete the syllabus on time.

Also Alumni of our students gives the feedback that, the syllabus meets the expectations of students

REPORT ON STUDENTS FEEDBACK ON DESIGNING AND REVIEW OF SYLLABUS

(With effect from the academic year 2017-2018)

The feedbacks collected from the students stated that from third year onwards, Students are getting into the domain of core subjects like basic electronics, spectroscopy, atomic and nuclear physics, one major elective paper and general physics practicals. During third year, again students are given with a chance of getting in one skill based subject (Personality development) which is highly useful to enrich the communication effectively.

The new syllabus of the course basic electronics gives deep understanding on fundamentals of electronics which makes the students to fit into do advance experiments in electronics laboratory.

According to the feedbacks received from the students, In the paper electricity, In unit-1, dipole is introduced but potential and field calculations along the axis and at any point relative to the axis of the dipole to be discussed is not clear. In unit-2, thermo milli ammeter chapter is not available in most of the electricity book used for reference.

In unit-3, a brief introduction of primary cell concept is needed, then only students can understand the difference between primary and secondary cells. In unit-5, series resonance circuit condition to obtain sharpness in resonance is not included. In general students noted that fundamentals should not be missed in the syllabus to understand the concepts

CURRICULUM FEEDBACK (PG Syllabus)

FEEDBACK ON CURRICULUM BY STUDENTS

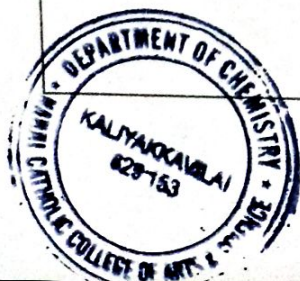

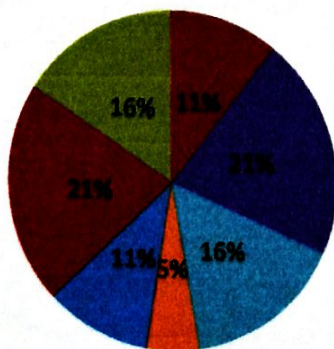

Class: MSc Chemistry

The feedback was collected from the students on the following parameters

- 10% of the students agree with the Size of syllabus in terms of the load.
- 16% of the students strongly agree with the objective stated for each of the courses is clear.
- 21% of the students told that the syllabus meets the expectation of students.
- 16% of the students agree with the fact that course content encourages extra learning and self learning.
- 5% of the students told that the present syllabus is offered in relation to the technological learning.
- 11% of the students strongly agree with the courses have sufficient number of practical/project components.

Feedback on Curriculum by Students

- Parameters
- Size of syllabus in terms of the load
- The objectives stated for each of the course are clear
- The course conceptually difficult to understand
- The entire syllabus was covered by the teacher
- Electives are offered in relation to the technological advancements
- Course content encourages extra learning and self learning
- I was able to get the prescribed text books and reference books
- The courses have sufficient number of practical/project components

STUDENTS FEEDBACK REPORT

The students also had a good opinion with the quality and relevance of courses prescribed in the curriculum. It is also observed that curriculum-related activities organised by the institution are fruitful to most of the students. Most of students have the opinion that soft skill improvement is made possible through the curriculum delivery mechanism followed in the college. Moreover, it is also revealed that to some of them are satisfied with the ethics and morality inculcated through curriculum.

ANALYSIS OF STUDENT'S FEEDBACK ON SYLLABUS

The student of academic year 2020-2021 strongly agrees that the syllabus in term of load is in appropriate size. They also assured that teachers completed the syllabus on time and the course content encourages them for extra learning and self learning. Few students agreed that the objectives stated in the course are clear and elective paper offer them proper technological advancement. Many students disagreed to the point that the course has any difficulty for them to understand. Students were also satisfied that the syllabus has provided them with sufficient practical/project hours.

Feed Back Report On

Designing and Review of Syllabus

The students of UG Mathematics class were given the syllabus feedback for all major subjects. According to them, the depth of the course content was 80% good. They claimed that the extent of coverage of course was up to 85% very good and 48% of students suggested that the applicability to real life situation was satisfactory because the prescribed portions cannot be connected with our real life situation. 69% of students suggested that the extents of the knowledge in certain concept were also found to be good. 96% of students claimed that the relevance of additional source material seems to be good and extent to the effort required was 68%. 70% of the students suggested that the clarity and reverence of textual reading material was also good. A last they concluded that the subjects given to those to create a positive accept and it helped the students to understand the topic well. And also, staff enquired about the difficulty of the subject and the remedial measures was taken.

The students of PG Maths were given the syllabus feedback form for All major and elective subjects. According to them, the depth of the course content was 90% very good. They claimed that the extent of coverage of course was up to 80% good and 70% of students suggested that the applicability to real life situation was satisfactory because the prescribed portions cannot be connected with our real life situation. 82% of students suggested that the extents of the knowledge in certain concept were also found to be very good. 60% of students claimed that the relevance of additional source material seems to be good and extent to the effort required was 62%. 69% of the students suggested that the clarity and reverence of textual reading material was also good. A last they concluded that the subjects given to those to create a positive accept and it helped the students to understand the topic well. And also, staff enquired about the difficulty of the subject and the remedial measures was taken.

Also the teaching Staffs from the department of mathematics give the feed back about revised 2020-2021 syllabus. The learning objectives are well cleared for each course. The syllabus is well updated and suitable to course and the programme. The prescribed Text books and Reference books are available. The syllabus meets the requirements of industries The syllabus has sufficient number of project components. We are able to complete the syllabus on time.

Also Alumni of our students gives the feedback that, the syllabus meets the expectations of students

REPORT ON STUDENTS FEEDBACK ON DESIGNING AND REVIEW OF SYLLABUS

(With effect from the academic year 2020-2021)

The new syllabus gives the opportunity for the students to choose elective allied subjects per semester during first and second year with practicals. In addition with major and allied subjects, students are given with the chance of studying one skill based course (Maintenance of Electrical applications) which gives deep insights on electrical related instruments.

Regarding the syllabus of skilled-maintenance of electrical appliances and maintenance of electronic devices, the syllabus is suitable for the second year BSc Physics students. It fulfils the objective of the paper.

As per the new syllabus, on sixth semester also students must choose one major elective paper (Energy physics or medical physics). Objective of energy physics course is to provide an understanding of current usable energy crisis and available energy resources. It is suggested that, In most practical energy related applications, energy storage devices plays important role in storing electrical energy. example: solar panels, EV's, etc, needs batteries. So, giving some introduction, types and applications of batteries will be useful.

Nuclear Energy is an important and low carbon footprint energy resource, which was not in detailed teaching part according to current syllabus. Providing it in an elaborate way could give awareness to younger generation students.

CURRICULUM FEEDBACK

FEEDBACK ON CURRICULUM BY STUDENTS

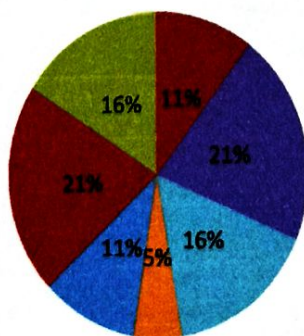

Class: BSc Chemistry

The feedback was collected from the students on the following parameters

- 14% of the students agree with the Size of syllabus in terms of the load.
- 18% of the students strongly agree with the objective stated for each of the courses is clear.
- 100% of the students told that the syllabus meets the expectation of students.
- 17% of the students agree with the fact that course content encourages extra learning and self learning.
- 100% of the students told that the present syllabus is offered in relation to the technological learning.
- 17% of the students strongly agree with the courses have sufficient number of practical/project components.

Feedback on Curriculum by students

- Parameters

Designing and Review of Syllabus

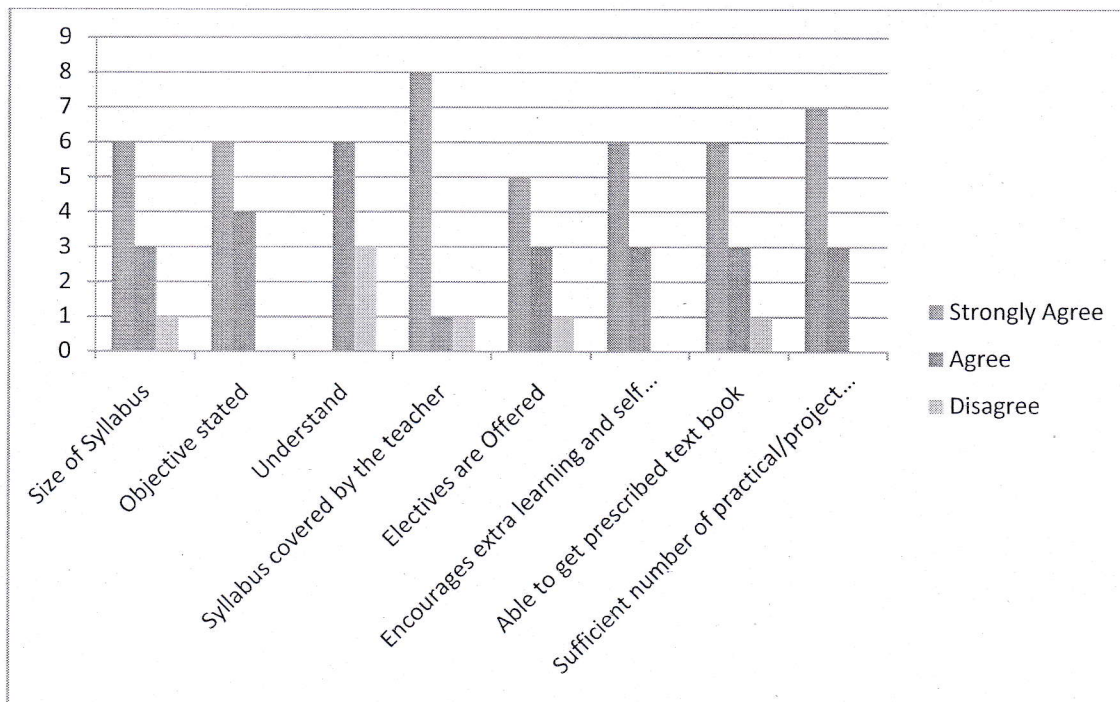

Students Feedback Report

2020 – 2021

INTRODUCTION

This institution affiliated to Manonmaniam Sundaranar University, the computer science department follows the curriculum designed by it. The structured feedback regarding design and review of the syllabus was obtained from students, alumni and teachers. In order to obtain the feedback, a structured questionnaire was designed to elicit the responses regarding relevant issues concerning design, review and delivery of syllabus. This section includes analysis of feedback obtained from students.

Feedback on design and review of syllabus was collected from UG and PG students of the institute. Analysis of the feedback is presented in chart and table

Parameters	Strongly Agree	Agree	Disagree	Strongly Disagree
Size of Syllabus	6	3	1	-
Objective stated	6	4	-	-
Understand	-	6	3	1
Syllabus covered by the teacher	8	1	1	-
Electives are Offered	5	3	1	1
Encourages extra learning and self learning	6	3	-	1
Able to get prescribed text book	6	3	1	-
Sufficient number of practical/project component	7	3	-	-

Conclusion:

The response of maximum from students regarding design and review of syllabus was satisfactory. They found that the syllabi was relevant to job oriented and knowledge imparting.

Student Feedback Report

- Most of the students have the opinion that the course content has job relevance.
- The present syllabus is career-oriented according to most of the students.
- It is also observed that the students are satisfied with the reference materials available in the college.
- The curriculum is capable of supporting students in their higher studies as per the observation of students.

Designing and Review of Syllabus

Students Feedback Report

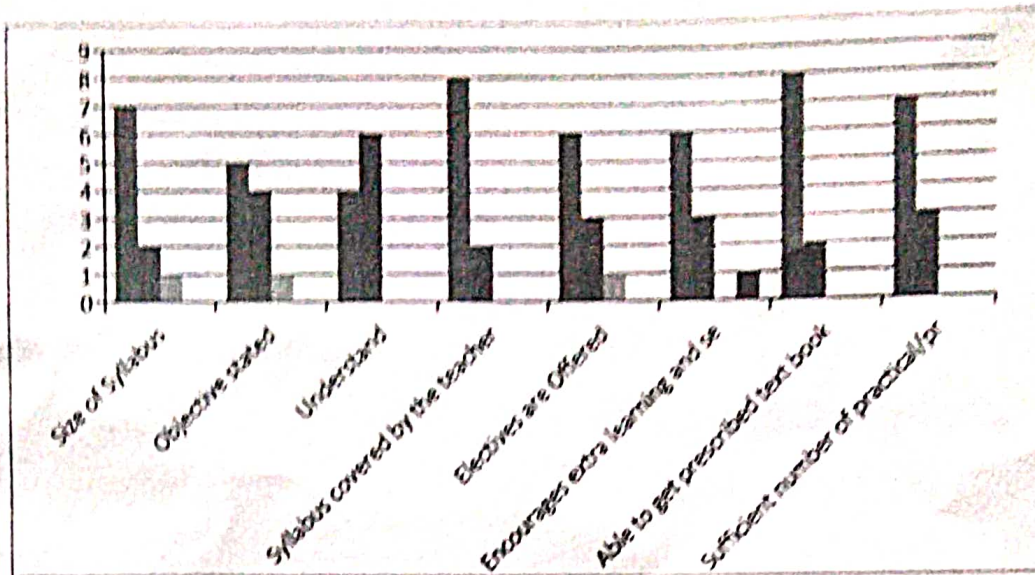

2020 – 2021

INTRODUCTION

This institution affiliated to Manonmaniam Sundaranar University, the UG & PG Commerce department follows the curriculum designed by it. The structured feedback regarding design and review of the syllabus was obtained from 5 UG & 5 PG sample students. In order to obtain the feedback, a structured questionnaire was designed to elicit the responses regarding relevant issues concerning design, review and delivery of syllabus.

Feedback on design and review of syllabus was collected from UG and PG students of the institute. Analysis of the feedback is presented in chart and table

Parameters	Strongly Agree	Agree	Disagree	Strongly Disagree
Size of Syllabus	7	2	1	-
Objective stated	5	4	1	-
Understand	4	6	-	-
Syllabus covered by the teacher	8	2	-	-
Electives are Offered	6	3	1	-
Encourages extra learning and self learning	6	3	-	1
Able to get prescribed text book	8	2	0	-
Sufficient number of practical/project component	7	3	-	-

Results :

The maximum number of students responded the design and review of syllabus was satisfactory. They found that the syllabi was relevant to job oriented and knowledge imparting.

REPORT ON STUDENTS FEEDBACK

ACADEMIC YEAR 2021-2022

Students' feedback is a prime factor for the enhancement of the learning environment and can help teachers to enhance their skills. It also nourishes teacher-student communication in classroom and assists to achieve excellence in teaching learning process. To evaluate design and review the syllabus, student's feedback was gathered through a feedback form. All the 20 students were asked to give their opinion on new syllabus. They are required to submit their responses to a set of eight statements on a 4-point Likert Scale in which choices range from Strongly Agree- Strongly Disagree. From the overall evaluation, they held a neutral opinion about syllabus.

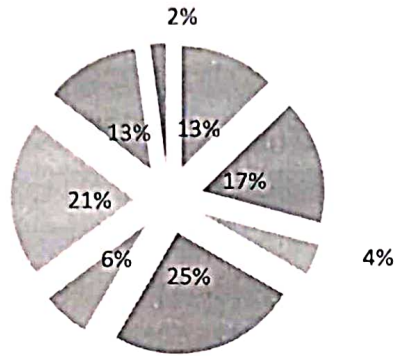

SI. No	Parameters	SA	A	D	SDA
1.	Size of the syllabus in terms of the load	6	10	3	1
2.	The objectives stated for each of the course are clear	8	9	3	-
3.	The course is conceptually difficult to understand	2	4	7	7
4.	The entire syllabus was covered by the teacher	12	8	-	-
5.	Electives are offered in relation to the technological advancements	3	9	3	5
6.	Course content encourages extra learning and self learning	10	7	3	-
7.	I was able to get the prescribed text books and reference books	6	7	5	2
8.	The course have sufficient number of practical/ project components	1	3	12	4

ANALYSIS OF STUDENT'S FEEDBACK ON SYLLABUS

The student of academic year 2021-2022 strongly agrees that the syllabus in term of load is in appropriate size. They also assured that teachers completed the syllabus on time and the course content encourages them for extra learning and self learning. Few students agreed that the objectives stated in the course are clear and elective paper offer them proper technological advancement. Many students disagreed to the point that the course has any difficulty for them to understand. Students were also satisfied that the syllabus has provided them with sufficient practical/project hours.

Feed Back Report On

Designing and Review of Syllabus

The students of UG Mathematics class were given the syllabus feedback for all major subjects. According to them, the depth of the course content was 60% good. They claimed that the extent of coverage of course was up to 80% very good and 40% of students suggested that the applicability to real life situation was satisfactory because the prescribed portions cannot be connected with our real life situation. 60% of students suggested that the extents of the knowledge in certain concept were also found to be good. 95% of students claimed that the relevance of additional source material seems to be good and extent to the effort required was 60%. 60% of the students suggested that the clarity and reverence of textual reading material was also good. A last they concluded that the subjects given to those to create a positive accept and it helped the students to understand the topic well. And also, staff enquired about the difficulty of the subject and the remedial measures was taken.

The students of PG Maths were given the syllabus feedback form for All major and elective subjects. According to them, the depth of the course content was 80% very good. They claimed that the extent of coverage of course was up to 60% good and 60% of students suggested that the applicability to real life situation was satisfactory because the prescribed portions cannot be connected with our real life situation. 80% of students suggested that the extents of the knowledge in certain concept were also found to be very good. 60% of students claimed that the relevance of additional source material seems to be good and extent to the effort required was 60%. 60% of the students suggested that the clarity and reverence of textual reading material was also good. A last they concluded that the subjects given to those to create a positive accept and it helped the students to understand the topic well. And also, staff enquired about the difficulty of the subject and the remedial measures was taken.

Also the teaching Staffs from the department of mathematics give the feed back about revised 2021-2022 syllabus. The learning objectives are well cleared for each course. The syllabus is well updated and suitable to course and the programme. The prescribed Text books and Reference books are available. The syllabus meets the requirements of industries The syllabus has sufficient number of project components. We are able to complete the syllabus on time.

Also Alumni of our students gives the feedback that, the syllabus meets the expectations of students

REPORT ON STUDENTS FEEDBACK ON DESIGNING AND REVIEW OF SYLLABUS

(With effect from the academic year 2021-2022)

Feedbacks collected from the students stated that the revised syllabus of atomic and molecular spectroscopy gives comprehensive overview on various spectroscopic techniques providing a large deal of underlying theory and also technical details.

First unit comprises basics of atomic spectra and stern-gerlach experiment. There is a major change in second and third unit. New theoretical topics of atomic and molecular physics are sandwiched in second unit.

IR and Microwave spectroscopy are merged in third unit. There is no major change in fourth unit in which Electronic and resonance spectroscopy combined altogether.

Raman and laser spectroscopy were introduced in fifth unit with little bit modification. Important parts of X-ray spectroscopy were fully omitted in revised syllabus. Indeed X-ray based spectroscopic methods are highly useful for project work of PG students, so this may be included in next revision.

Overall this revised syllabus is good, Surely students can gain enough knowledge regarding the basics of spectroscopy. This revised syllabus is worth for the PG level physics students.

CURRICULUM FEEDBACK (2021-2022)

FEEDBACK ON CURRICULUM BY STUDENTS

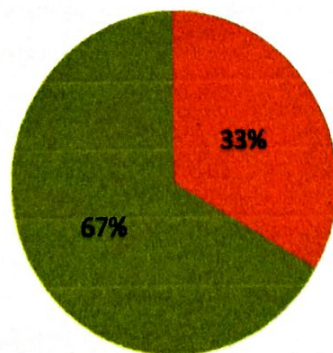

Class: MSc Chemistry

The feedback was collected from the students on the following parameters

- 100% of the students agree with the Size of syllabus in terms of the load.
- 100% of the students strongly agree with the objective stated for each of the courses is clear.
- 100% of the students told that the syllabus meets the expectation of students.
- 100% of the students agree with the fact that course content encourages extra learning and self learning.
- 33% of the students told that the present syllabus is offered in relation to the technological learning.
- 67% of the students strongly agree with the courses have sufficient number of practical/project components.

Feedback on Curriculum by Students

- Parameters
- Size of syllabus in terms of the load
- The objectives stated for each of the course are clear
- The course conceptually difficult to understand
- The entire syllabus was covered by the teacher
- Electives are offered in relation to the technological advancements
- Course content encourages extra learning and self learning
- I was able to get the prescribed text books and reference books
- The courses have sufficient number of practical/project components

Designing and Review of Syllabus

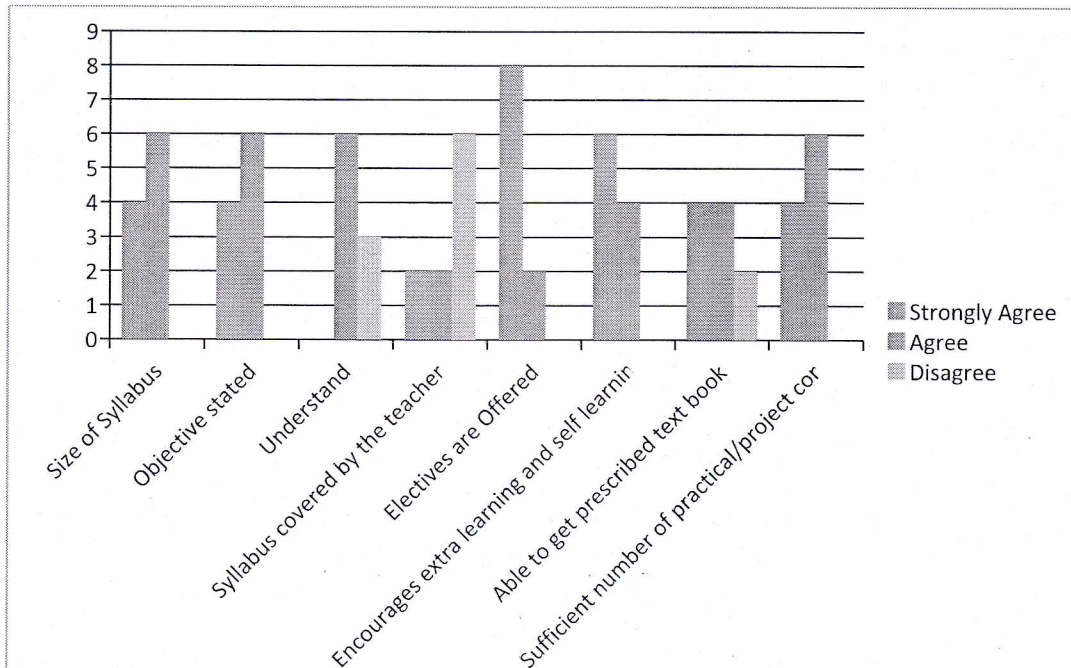

Students Feedback Report

2021 – 2022

INTRODUCTION

This institution affiliated to Manonmaniam Sundaranar University, the computer science department follows the curriculum designed by it. The structured feedback regarding design and review of the syllabus was obtained from students, alumni and teachers. In order to obtain the feedback, a structured questionnaire was designed to elicit the responses regarding relevant issues concerning design, review and delivery of syllabus. This section includes analysis of feedback obtained from students.

Feedback on design and review of syllabus was collected from UG and PG students of the institute. Analysis of the feedback is presented in chart and table

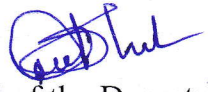

Parameters	Strongly Agree	Agree	Disagree	Strongly Disagree
Size of Syllabus	4	6	-	-
Objective stated	4	6	-	-
Understand	-	6	3	1
Syllabus covered by the teacher	2	2	6	-
Electives are Offered	8	2	-	-
Encourages extra learning and self learning	6	4	-	-
Able to get prescribed text book	4	4	2	-
Sufficient number of practical/project component	4	6	-	-

Conclusion:

The response of maximum from students regarding design and review of syllabus was satisfactory. They found that the syllabi was relevant to job oriented and knowledge imparting.

STUDENTS FEEDBACK REPORT

Students found curriculum to be very effective in enhancing team work, developing analytical skills and constructive learning. Students are satisfied with Teaching and Learning system of the College. Students are satisfied with the good infrastructure of the college and have found it to be safe and secure. They felt the curriculum has exposure to the real world problems and applications related to their domain and also they appreciated the individualized care and support to each student, especially the weaker students.

Feedback report on

Designing and review on syllabus

The students of UG Physical education class were given the syllabus feedback for all major subjects. According to them , the depth of the course content was 90% good. They claimed that the extent of coverage of course was up to 78% very good and 92% of students suggested that the applicability to real life situation was satisfactory because the prescribed portions can not be connected with our real life situation. 84% of students suggested that the extents of knowledge in certain concept were also found to be good. 95% of students claimed that the relevant of additional sourse materials seems to be good and extend to the effort required was 85%. 67% of the students suggested that the clarity and reference of texture reading material was also good. At a last they concluded that the subjects given to those who create a positive accept and it helped the students to understand the topic well and also, staff enquired about the difficulty of the subject and the remedial measures taken.

Also the students staffs from the department of physical education give the feedback about revised 2020-2021 syllabus. The learning objectives Are well cleared for each course the syllabus well updated and suitable to course and the program .The prescribed text book and Reference books are available .The syllabus meets the requirements of industries The syllabus has sufficient number of projects components .we are ale to complete the syllabus on time.

Also alumni of our students gives the feedback that ,The syllabus meets expectations of students.
